# Hi-Fi SHOW 2001

Sponsored by

Hi-Fi News

Novotel, London West

13-16 September 2001

A new age of digital  
audio is here.

Hear high resolution  
digital audio in the  
Lalande Room on the 2nd  
floor at the HiFi Show 2001

# Hi-Fi SHOW 2001

**Congratulations!** You're spending the day at the UK's greatest hi-fi and home entertainment event. Here at the 19th annual Hi-Fi Show you'll experience the technology explosion that's making hi-fi and home cinema more exciting than ever before. With high-resolution audio finally coming to fruition, you can hear just what the new advanced data formats can really do for music reproduction. You'll find new cinema systems with more sound channels, bigger and better pictures, even more breathtaking realism, and even more astounding features than last year's.

In this guide, you'll find exhibitors listed by company name, but remember many companies handle several brands: so to find a specific product, turn straight to the Brand Index first. At the back of the Guide you'll find the

floorplans — and finally our special Show competition!

If you don't know where to start, head for this year's special feature exhibit, the Room of the Future, for just a first taste of the feast of technical innovation and brilliant design that our exhibitors have laid on for you.

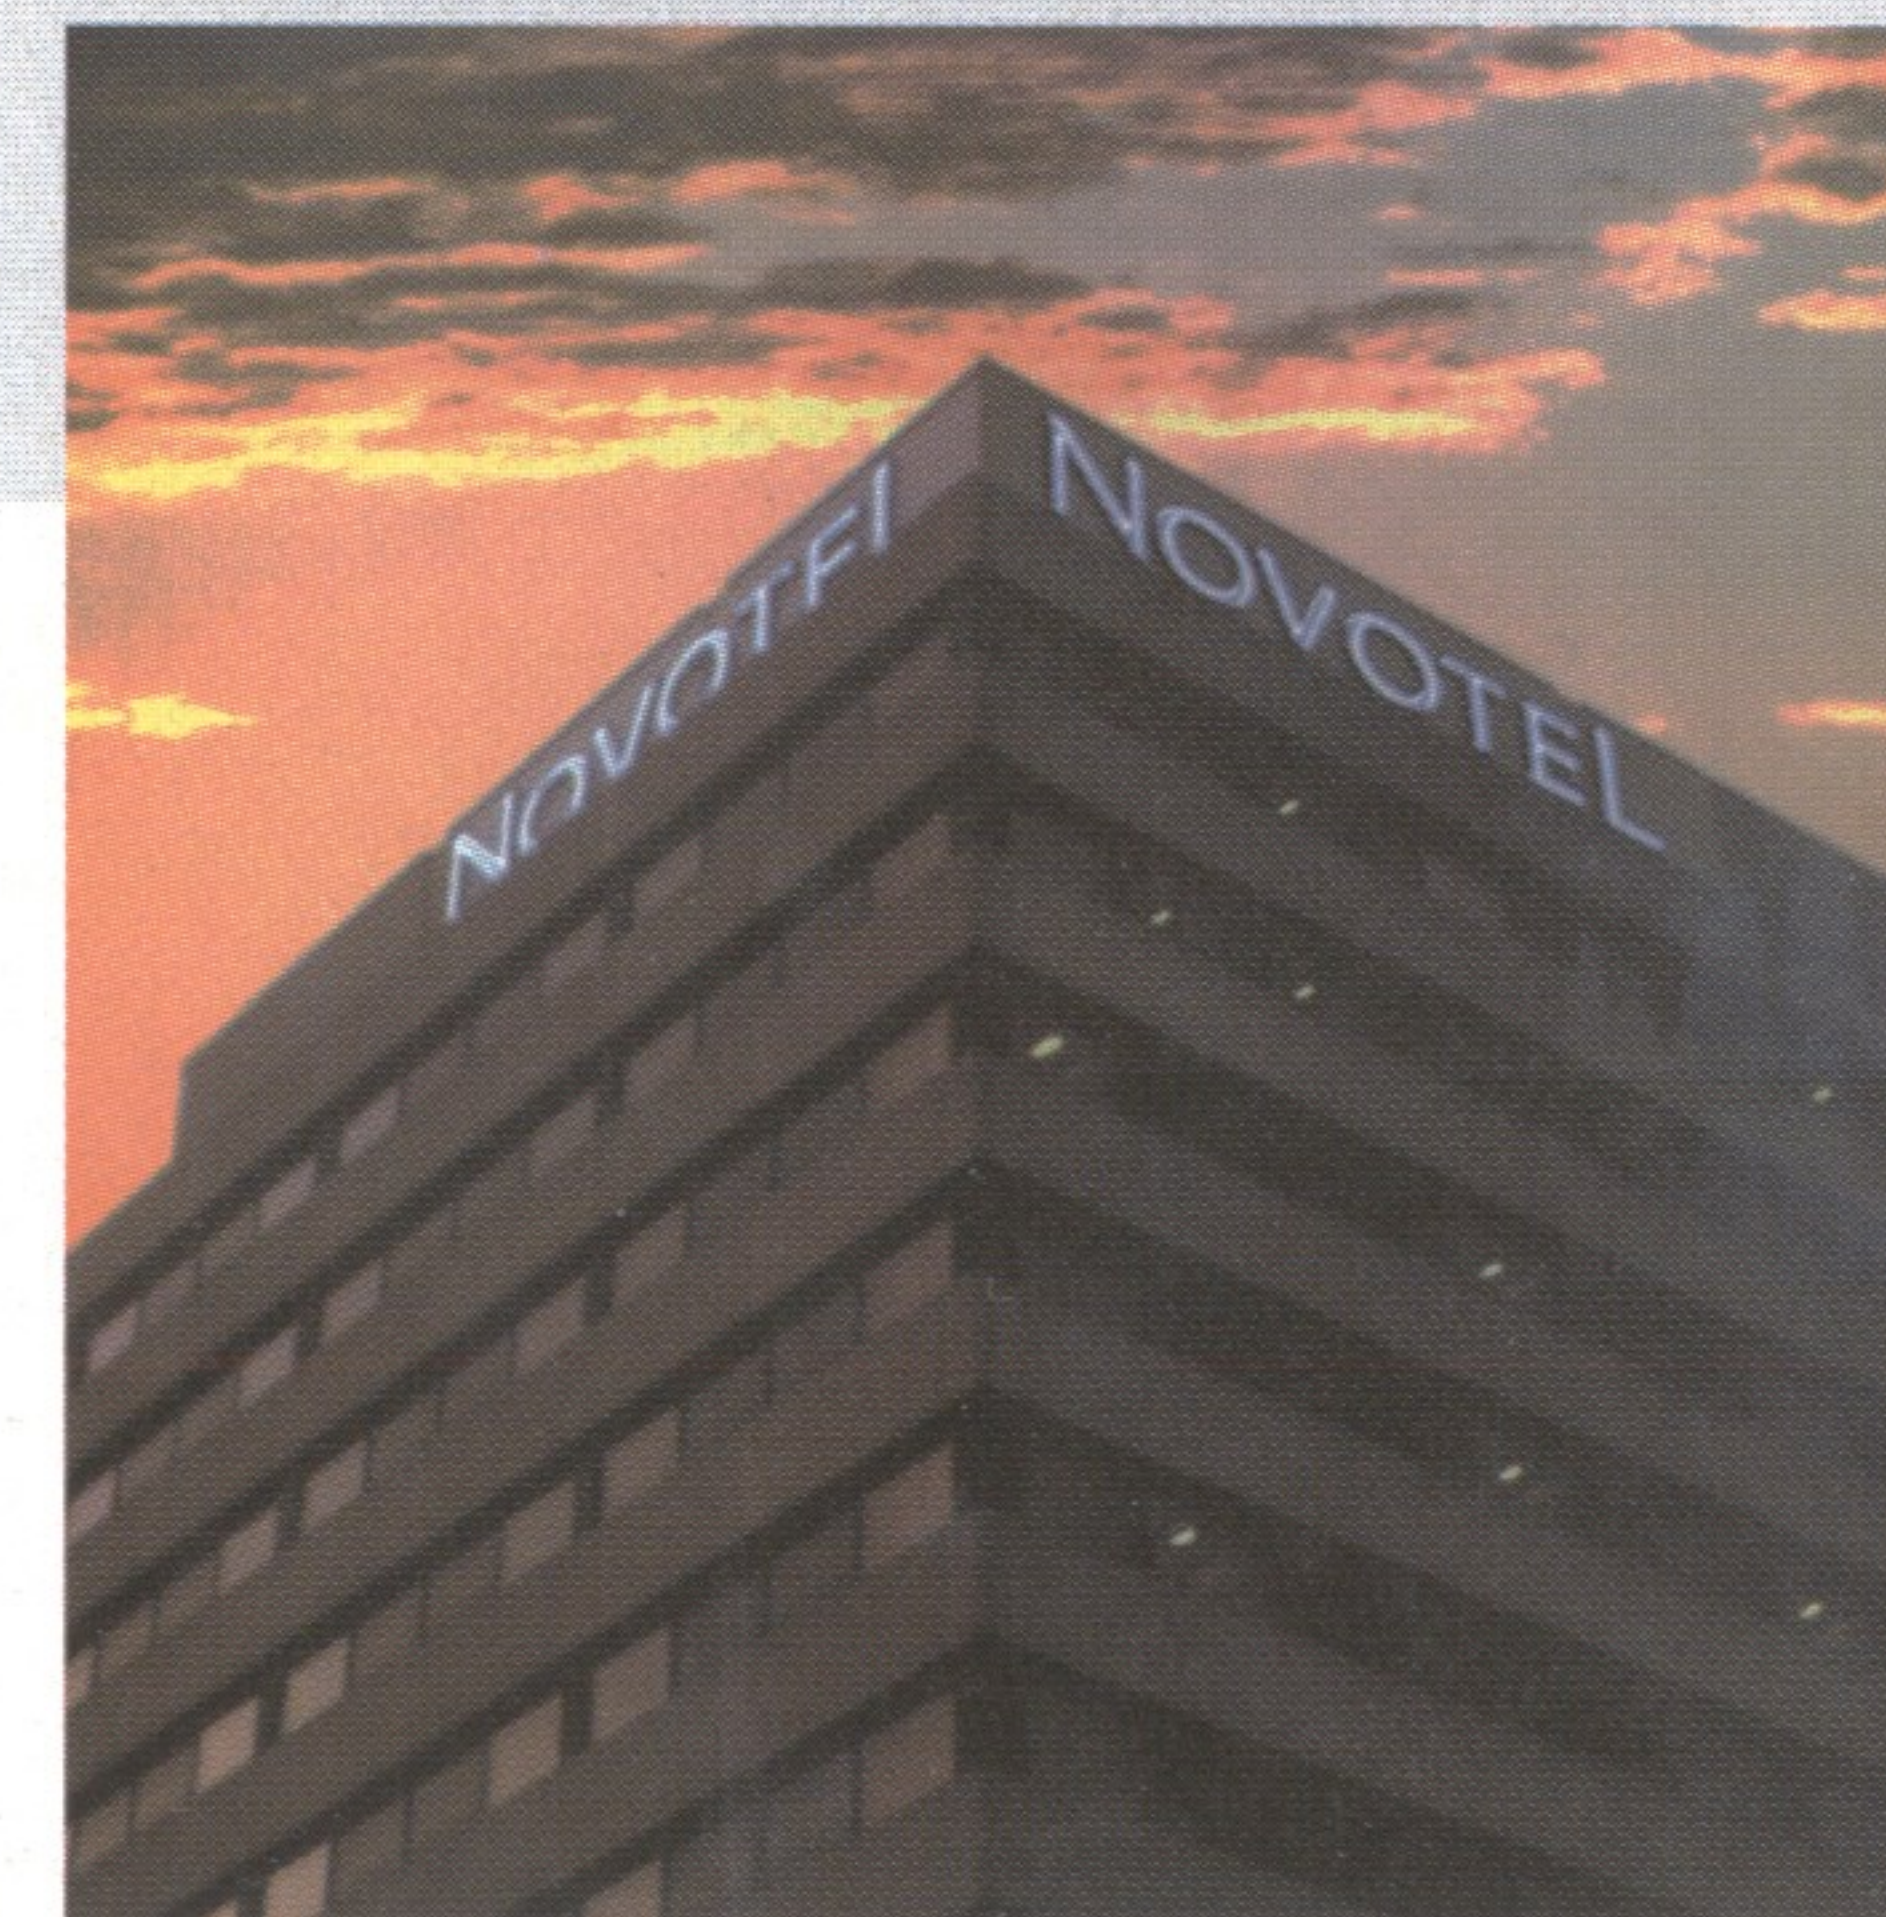

So, welcome to the event that brings together all today's developments under one roof. The Hi-Fi Show is truly the UK's international audio and home cinema showcase, and welcomes visitors from all over the globe. We're glad you're one of them.

## contents

- 6 Exhibitors' Listing**  
Lists all exhibitors by supplier company name, with brief details of products on show. Look here for manufacturers and distributors: check the Brand Index (pages 44-49) to find specific product brand names
- 39 Retailer listing**  
We've listed some leading retailers who've lent their support to the Hi-Fi Show this year, including hi-fi stores and record shops
- 41 Subscribe to Hi-Fi News**  
Make sure you get it every month: subscribe to *Hi-Fi News* now and save money with this unrepeatable offer
- 44 Brand Index**  
This quick-reference product finder lists the brands at the Show, cross-referenced to the main Exhibitor listing
- 50 Floorplans**  
Turn to pages 50-55 for a floor-by-floor guide covering Mezzanine, First, Second and Third Floors at the Novotel, complete with listing of exhibitors on each level
- 57 Competition**  
Win a mouthwatering EAR/Yoshino phono pre-amplifier worth more than £700 in our special Show competition

## Absolute Sounds

58 Durham Road  
London  
SW20 0TW

Tel: 020 8971 3909

## Alsace and Muscadet,

## Mezzanine Level

Absolute Sounds continue to introduce the finest high end audio and video products that money can buy. We are pleased to introduce the new Audio Research LS16 MKII, a brand new range of exciting products from Copland, a new projector from Dwin, the new DVD player and exciting LAT range of loudspeakers from Krell. Together with their executive system, plus the new Aeon loudspeaker from Martin Logan and Citadel Amplifiers from Theta Digital. Also, the exciting Watchdog subwoofer from Wilson Audio with the Sophia loudspeaker.

Such is our continued commitment to find the best audio and video components of their kind, products currently under evaluation at the time of going to press will be unveiled at this show.

Demonstration is by ticket only,

**Can't find the exhibitor?  
Detailed floor plans are on pages 50 to 55**

so please check for demonstration times at the Alsace and Muscadet rooms.

## Acoustic Energy

16 Bridge Road  
Cirencester  
Glos GL7 1NJ

Tel: 01285 654432

## Reims Room, First Floor

This year's show sees the launch of two of AE's most important products to date: the recently released Aesprit series and the eagerly awaited AEGO5.

The Aesprit Series combines new high-tech drive units with superb craftsmanship wood veneer cabinets to create a unique blend of performance, style and value for today's demanding music and film recordings.

Following on from the highly successful AEGO2, the AEGO5 is the ultimate in discreet but powerful plug-and-play multi-channel speaker systems. A six-channel active sub with 5 satellites and Dolby Digital/DTS processor at an affordable price make this product well worth a look.

Finally, AE has lead the way in the budget speaker market over

## Energy's Take 5.2 speaker (Eperny Room)

the past few years, and the Aegis Evolution Series is set to continue that trend. A preview of this forthcoming series will also be on show.

## ADT Speaker Co Ltd

TaeYoung B/D 202,  
1363-5 SeoCho-Dong  
SeoCho-Ku

Korea

Tel: 822-34720250

## Room 3121, Third Floor

The ADT Speaker is being applied as an enclosure, rack, amp, and CD player front panel by Corian solid surface. ADT is a high quality product, manufactured by order, through the hands of dextrous engineers.

ADT uses a MMA (Methyl Metacrylate) solid surface like Corian as a material to make audio-related products and enclosures. It was found to be optimal for mid and high frequency enclosures.

ADT has been developing through many trials. Eventually, with a decrease in material costs, improvements in production technology, and a production system that enables small amount orders, newly developed Corian painting and coating methods have been introduced.

## API (UK) Ltd

Armorex Centre  
Bury Road  
Lavenham Sudbury  
Suffolk CO10 9QD

Tel: 01787 249656

## Epernay, First Floor

Energy and Mirage's loudspeakers are now firmly established as 'Best Buy' products throughout the UK specialist Press.

New products to be shown for the first time at the London Show include Mirage's OM-9: the latest addition to the unique 'Omniplar' Series, with outstanding value. Energy's new addition to its compact series is the 'Best Buy' Take 5.2 compact Home Cinema System.

New additions to the flagship Energy Series, now established for over eight years, feature twin voice-coil drive units that reduce audible distortion to an absolute minimum.

Niles – the premium installation

products that can provide music throughout the house without being seen – come and see how!

## ART Loudspeakers

3 Dukes Road  
Troon, Ayrshire  
Scotland KA10 6QR

Tel: 01292 319416

## Room 3126, Third Floor

Technology in action – hear here! The ART loudspeakers' show room is the place to witness the very pinnacle of acoustic engineering. Its product range, including the flagship Impression model, the elegant Illusion Series floorstanders, and a brand new stand-mounted monitor design, offers unparalleled sensory magic. Proprietary ART technology points the way ahead in loudspeaker design, enhancing the acoustic experience and providing, quite simply, music as it is.

## ATC, Loudspeaker Technology Ltd

Gypsy Lane  
Aston Down  
Stroud  
Glos GL6 8HR

Tel: 01285 760561

## St Emilion, Second Floor

ATC launches its fourth, most compact and least expensive, 'Concept 2' 5.1 channel Active Loudspeaker Collection. The collection comprises four new 250 watt 'Active 10' two-way loudspeakers, with matching dedicated, horizontal, 250 watt centre channel, and the new ATC 'Sub 03'.

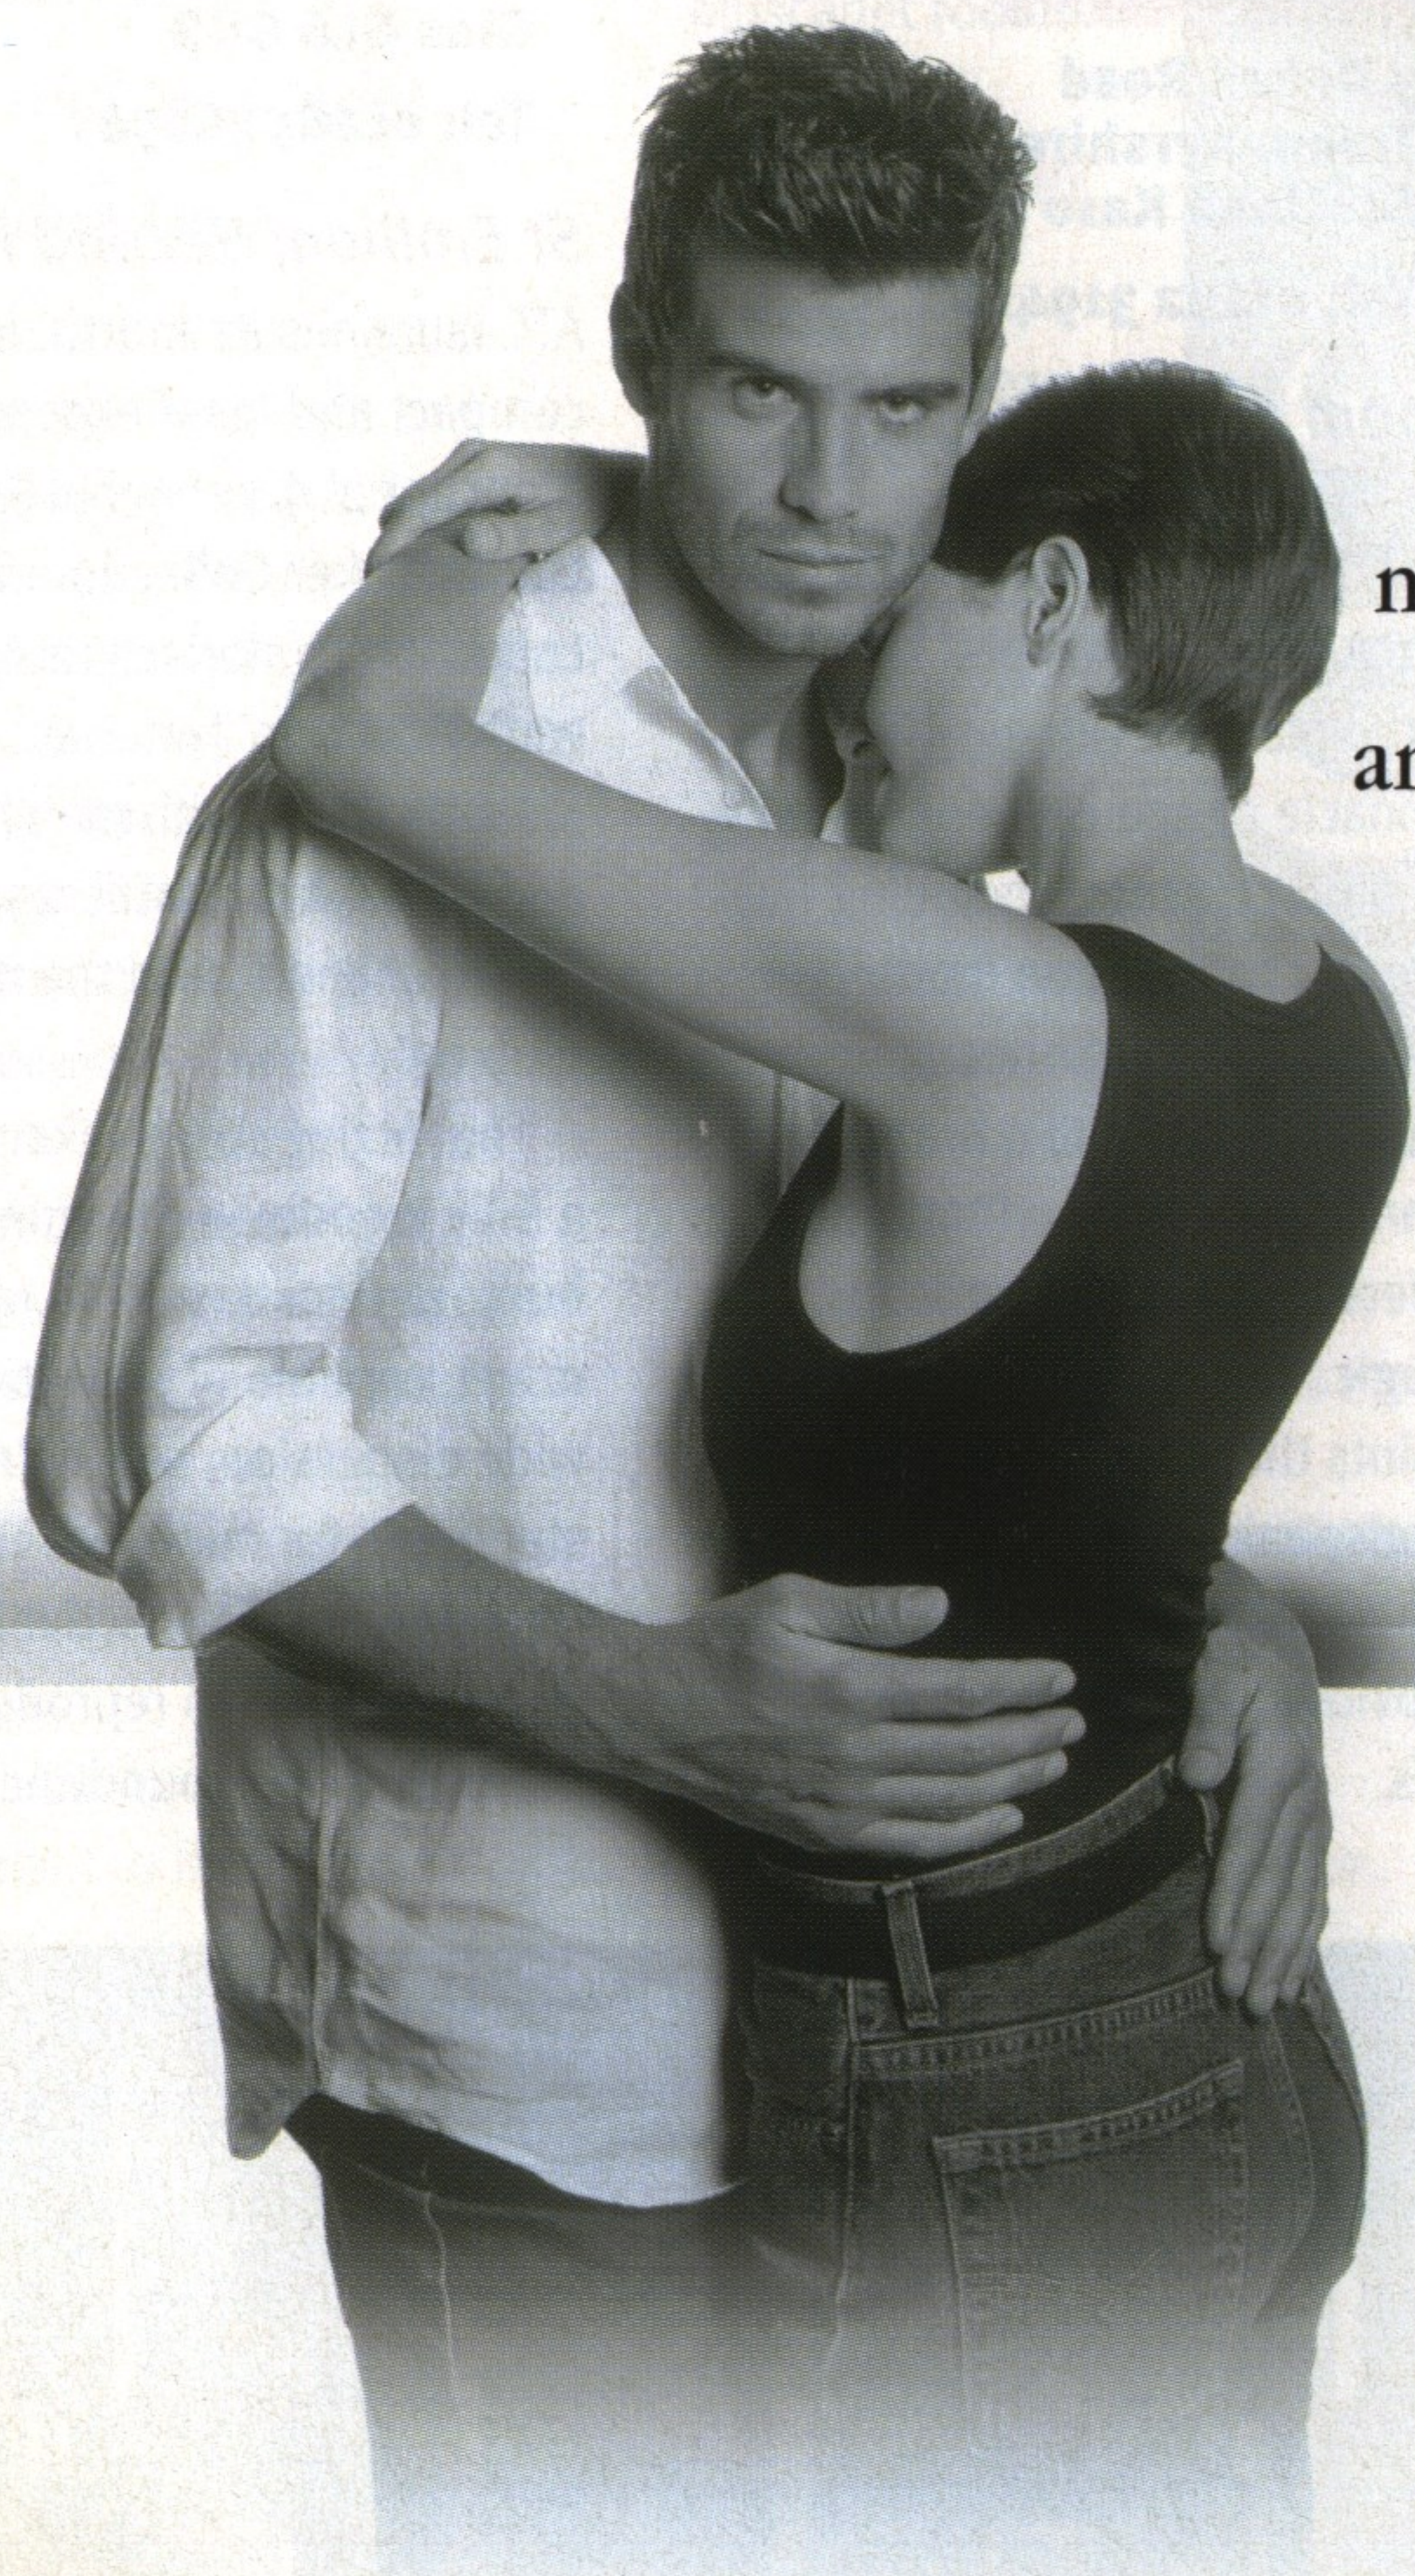

The 'Active 10' speaker features a Billy Woodman designed, hand-built, 125mm bass/mid range driver, capable of exceptionally wide dispersion, setting new standards for midrange transparency. The 'Active 10' has been designed to reproduce music and film soundtracks from

ATC's Concept 2 collection (St Emilion Room)

# marantz®

because music matters

all sources, including SACD and DVD Audio, stereo and multi-channel formats. Compact enough to suit smaller installations, each 'Active 10' is still capable of 105 dB SPL, and able to reproduce dynamic orchestral and effects transients with ease.

ATC will be demonstrating newly released music and video material from DTS, sourced from the new pioneer DV939A DVD Audio/Video player and the new SIM2 HT200 DM projector.

#### **Audiofreaks**

15 Link Way  
Ham  
Surrey  
TW10 7QT

Tel: 020 8948 4153

#### **Graves, Second Floor**

As always, we shall do our very best to introduce and present a number of previously unseen and unheard products within our reference audio system. This year, the very first solid-state Premier pre-amplifier from Conrad-Johnson, the rejuvenated Eclipse Classic dynamic loudspeaker from Avalon Acoustics, the very latest Thalia CD/DVD player from Muse Electronics, and many others, will once again create a highly musical and memorable performance.

But that's not all there is to look forward to. Our audio system will also feature components from a new range of state-of-the-art solid-state (transistor) electronics — something we have been

looking for for many years. So this will be the formal world launch of a brand name that could easily disturb the established hierarchy in this field.

What else? A selection of LPs and CDs for those who seek titles sufficiently rare and carefully-chosen — all at special Show prices.

#### **Audio Group International**

Holland Road  
Language Science Park  
Plymouth  
Devon PL7 5HJ

Tel: 01752 333800

#### **Room 19, First Floor**

JPW. JPW will be showing the sensational new 200 Series of

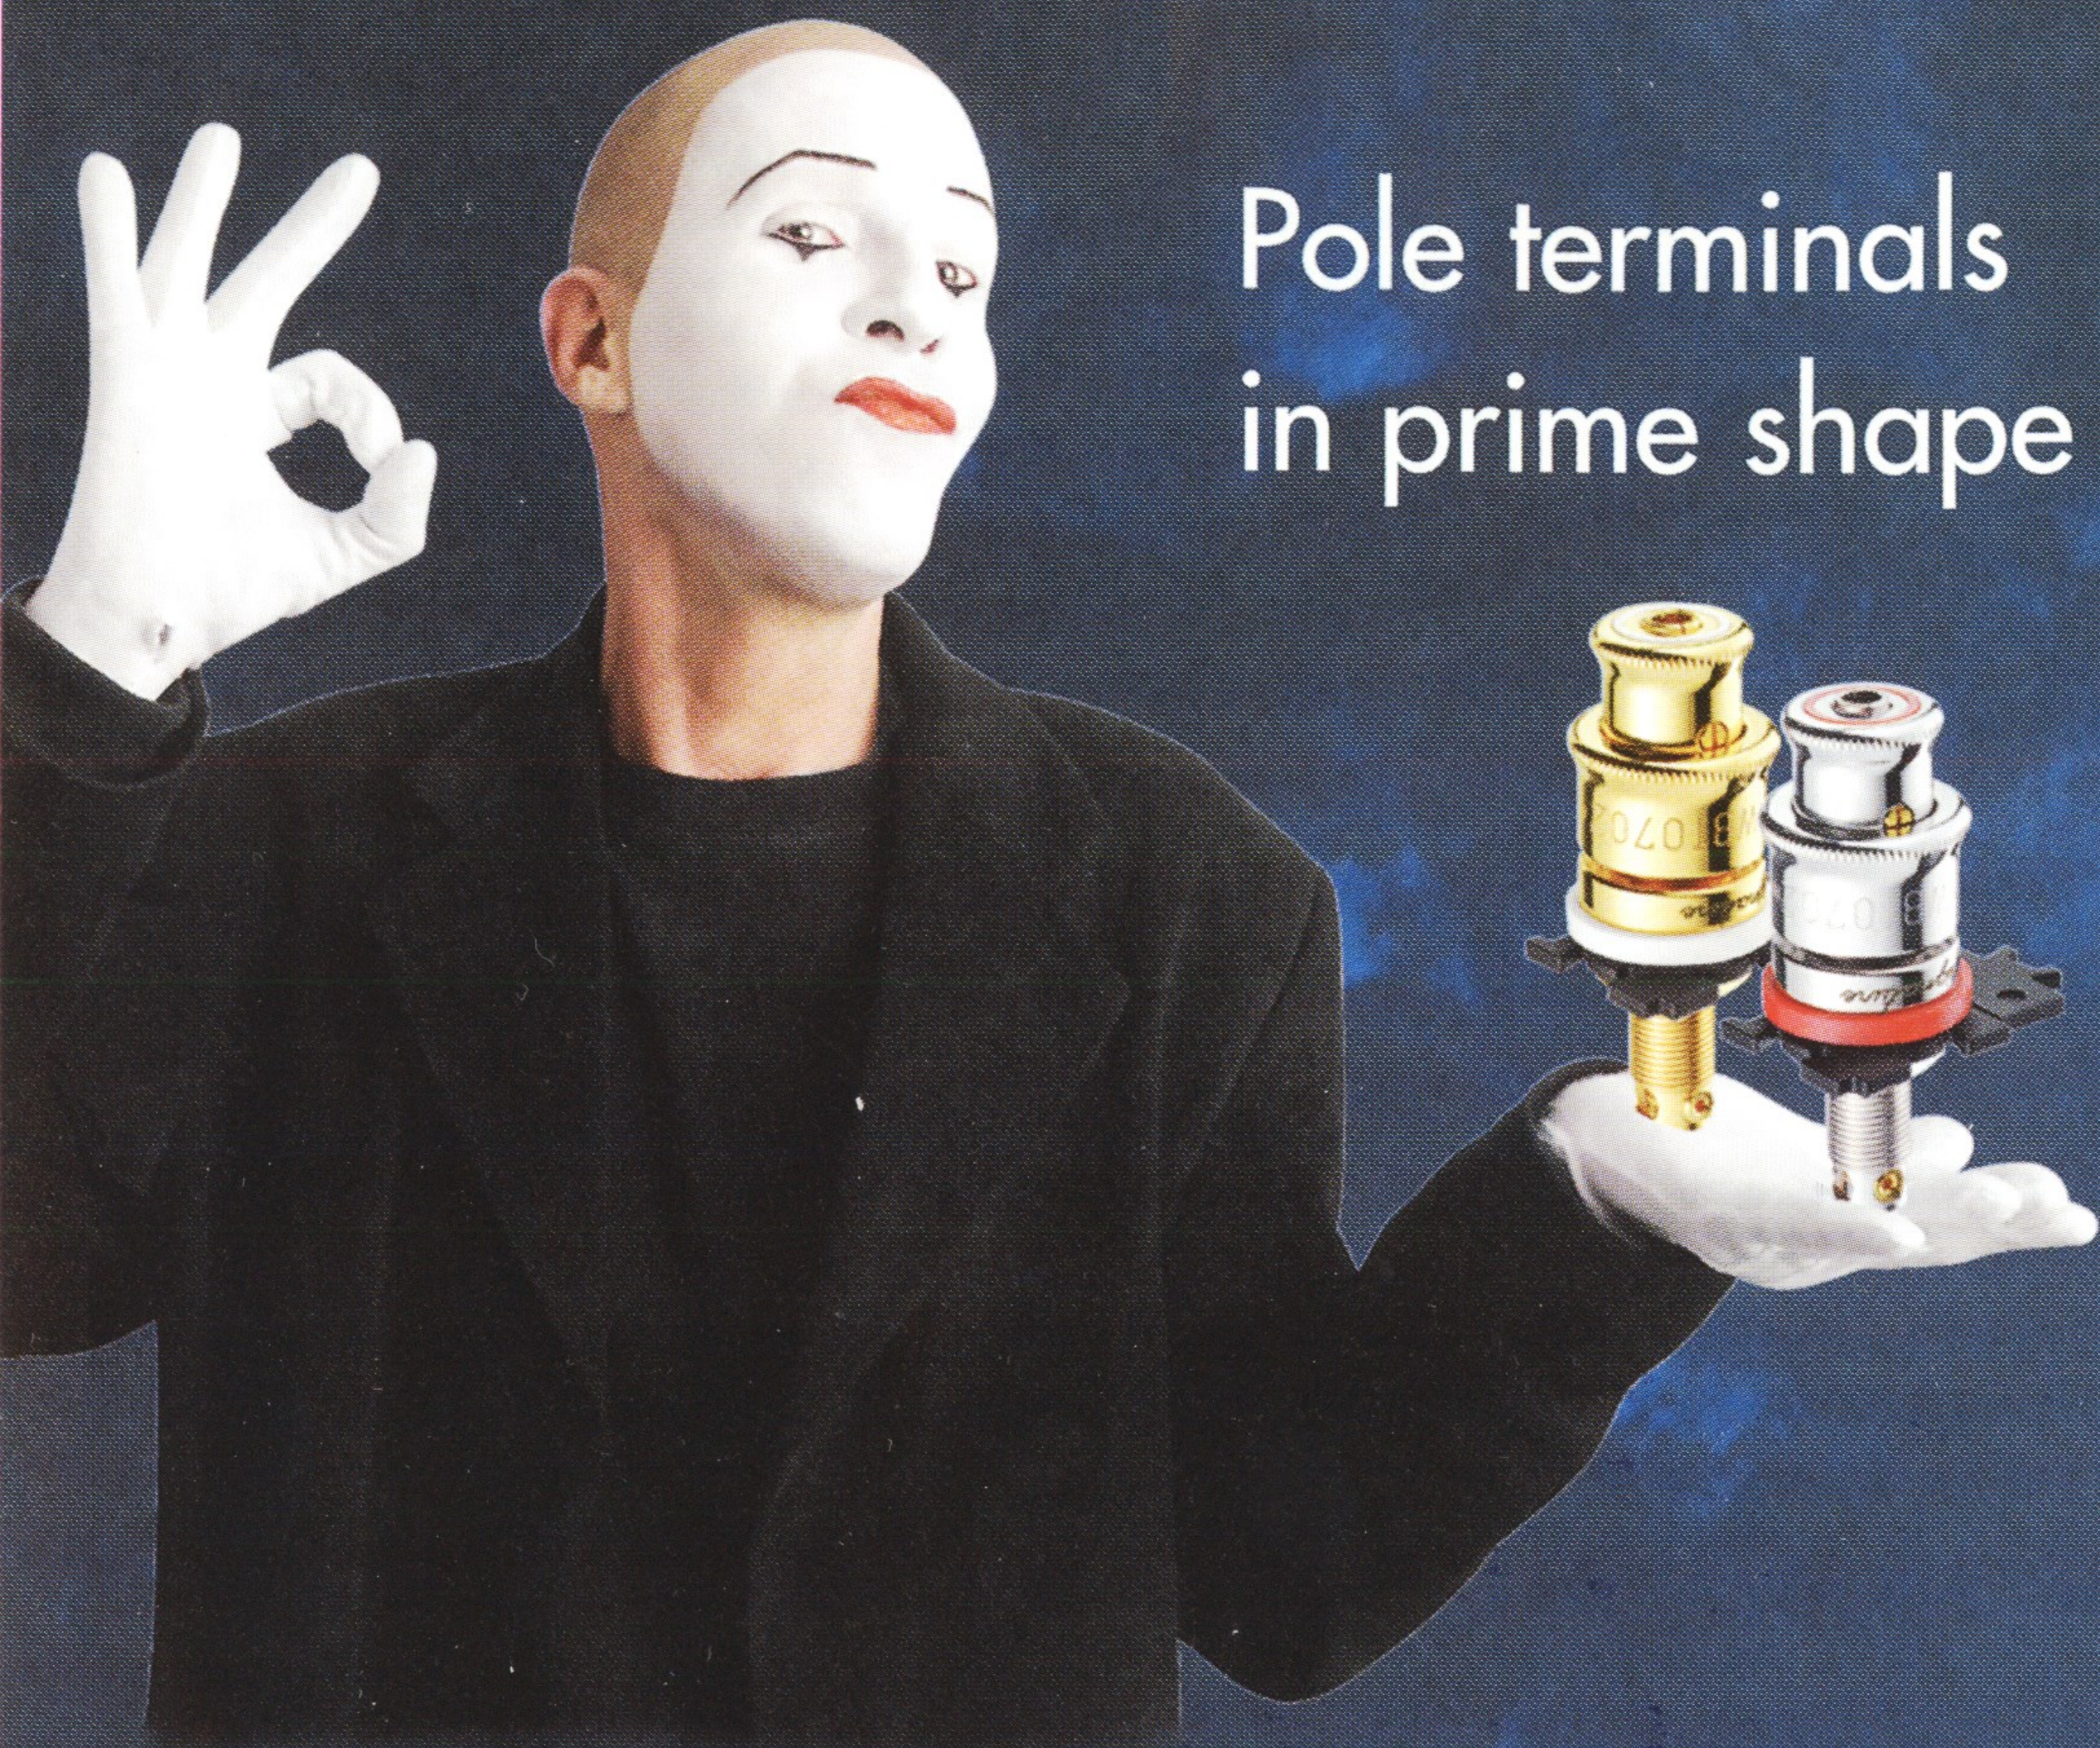

loudspeakers. Combining cutting-edge technology with cool, sophisticated, contemporary design, the range meets the needs of movie enthusiasts and audiophiles. From desk-top monitors, stand-mounted and floorstanding designs, powered tower speakers and flush-fitting 'in wall' models, to specialised home theatre products — the 200 Series delivers the style, flexibility and value that has become key to JPW's success.

Heybrook. Heybrook will be showing the complete 2000 Series of loudspeakers. The already highly acclaimed HB1, 2, 3 and 4 have been joined by a new star, the fabulous Point Five compact monitor (£130/pr).

**New Conrad-Johnson pre-amplifier from Audiofreaks**

Pole terminals

## Monitor Audio Gold Reference Series™

Monitor Audio's ceaseless drive for sonic perfection finds its latest expression in the new Gold Reference Series. The Gold Reference brings new advanced drive unit technology to the market and implements it with the highest standards of engineering and build currently possible.

Hi-fi and cinema systems have a new Gold standard.

### WHAT HI-FI?

#### Monitor Audio Gold Reference 20

'Fast and dynamic sound with bags of resolution... An excellent product from Monitor Audio that deserves to continue the long standing success of the Studio 20SE. We have no choice but to recommend them highly.'

### WHAT HI-FI?

#### Monitor Audio Gold Reference 10

'Beautifully judged pace and detail; no shortage of bass weight. Few speakers just 36cm tall are capable of a sound with so much conviction... the GR10's carry on Monitor Audio's enviable reputation for great standmounters.'

**MONITOR AUDIO**

## theexhibitors

Affordable Home Cinema Systems that sound lifelike, coherent and unfatiguing can now be created using the new HBC1 centre channel (£150) and HBS200 Active Sub-woofer (£350)

*Sequence.* The newly re-launched Sequence range of flat, wall-mounting loudspeakers is now available in a choice of six colours to allow them to match any interior. With the dynamic performance of conventional 'box' loudspeakers, these discreet panels are the perfect accompaniment to the latest generation of plasma TVs, and at 7cm deep are slimmer than any of the alternatives. Also on show for the first time, the matching SW500 150 watt active sub-woofer.

### Audio Reference

Units 8/9, Slyfield Ind Est  
Guildford, Surrey  
GU1 1RB

Tel: 01252 702 705

### Rooms 3129, 3131, Third Floor

Audio Reference has gathered together some of the very finest audio components from around the world. This is a unique opportunity to come and experience some of the very best sounds at the show.

Room 3131 will comprise the award-winning Clearaudio Master Reference turntable, with top of the range Insider Reference MC cartridge. CAT pre-amplifier and UK first Halcro DM 58 Monoblocks

(With their unprecedented, low harmonic distortion levels of less than 100 parts per billion!) will drive the Acapella plasma horn speakers.

Room 3129 will show the Gamut D200 and its stunning new flagship the S300, together with its CD player and pre-amplifier.

### Audio Synergy/Sugden

Valley Works  
Station Lane  
Heckmondwike  
W Yorks WF16 0NF

Tel: 01924 406016

### Room 3124, Third Floor

This year's Hi-Fi Show will see a host of new products from this famous Yorkshire manufacturer. The new flagship integrated Masterclass amplifier will be revealed to the press and the public. This is a long-awaited product, which promises new levels of musicality at its intended price point. The performance stakes just got moved!

*Sugden* has been famous for its older generation of FM Tuners, this show will mark the arrival of the newly designed FM Master and T21 tuners. Once again the magic formula of incorporating a class A output stage shows great benefits in transparency, lucidity and musicality. These tuners are extremely quiet in operation and big on sound quality. As with the renaissance in the popularity of vinyl, these top class tuners will have all listeners searching the airwaves for live FM broadcasts.

### B4 Projection

56 Peppard Road  
Emmer Green, Reading  
Berks RG4 8NG

Tel: 0118 3759464

### Room 3110, Third Floor

B4 Projection is a specialist in the refurbishing of CRT projectors for use in Home Cinema. After working for Barco Ltd for 8 years, we have long realised the quality of image possible from a good CRT projector. We will be demonstrating three of our reworked projectors, 708, 808 and 1209. Come and see just how good an image is possible!

### Beyond the Box

Court Green  
Eden Road  
Tunbridge Wells  
Kent TN1 1TS

Tel: 01483 573291

### Room 3125, Third Floor

Beyond the Box makes its debut at the Hi-Fi Show, creating a bridge between audio excellence and the desirability of a product that is beyond the box. The three-model range of High Fidelity loudspeaker separates, designed with a home cinema capability, is truly groundbreaking in its aesthetics and approach.

The unorthodox thinking of creative-marketing group Jam and the technological expertise of Vifa, has allowed the realisation of a high-quality audio system that will, undoubtedly, prick up ears, turn heads and create a few surprises.

**Cabasse SA**  
26 Rue l'Eau Blanche  
Kergonan  
29287 Brest Cedex  
France

Tel: +33 298 41 21 50

### Room 3128, Third Floor

Room 3128 will major on style as well as sound. Cabasse will be introducing the beautiful new Ki aluminium speakers, and the unique Aloia range of amplifiers and CD player will drive these. (All with inductive power supplies which make them very special.)

There will be something for everyone — from those with a modest pocket to the deepest — so come and join us and bring some of your favourite music and see how it can really sound.

### Carleo Electronics

48 High St  
Collingtree  
Northampton  
NN4 0NE  
Tel: 01604 660285

### Castle (Electrocompaniet)

Park Mill  
Shortbank Road  
Shipton  
N Yorks BD23 2TT  
Tel: 01756 795333

### Sauternes, Second Floor

Castle Acoustics. It is with great pleasure that Castle is able to release its completely revamped 'Classic Range' to the UK market at the Hi-Fi Show. The process of upgrading the 'Classics' began in the summer with the release of two compact bookshelf models,

Durham 3 and Warwick 3, together with the Bastion Centre Channel. Now for the first time in the UK, Castle will be showing a further three new models which complete the new 'Classic Range'.

The first of these, the new Richmond 3, is a compact bookshelf model, which will retail for less than £300. In addition, Castle are adding two more floor-standing designs, Stirling 3 and

Conway 3, retailing at £700 and £900 respectively. Both designs feature Dipolito drive unit arrangement and are fully shielded, making them ideal for use in AV systems. Both the Richmond 3 and the Conway 3 will be on demonstration, using Electrocompaniet equipment, in the Sauternes room on the second floor.

Electrocompaniet. After months of keen waiting it is finally here, the long awaited EMC-1 Upsampling CD player from Electrocompaniet. This 24-bit 192kHz player has the refinement that all of us seek in our audio desires, offering effortless sound but with the level of

ProAc Future point 5 speaker

detail few suspected CD could achieve.

Also for the first time in the UK you will be able to see the AW 220 amplifiers, a 200W bridged design, and at a price that will astound when it is revealed at the show. Also on display at the show will be the fabulous Nemo Power amplifiers — '600 watts of bliss' as one person described them.

Come and experience the sound of Electrocompaniet in the Sauternes room.

### Celef Audio International Ltd/ProAc

Highpoint House  
Riding Road  
Brackley

Northants NN13 7BH

Tel: 01280 700147

### Barsac Room, Second Floor

For the first time, ProAc will be demonstrating the new 'Future Point Five'.

### Chapter Audio Ltd

8 Waverley Avenue  
Exeter  
Devon EX4 4NL  
Tel: 01392 686797

### Room 3130, Third Floor

Chapter Audio will be showing its Chapter Two power amplifier. The Chapter Two is based on a 'state of the art' Power Factor Corrected switch mode power supply. This power supply has been designed in-house and delivers a 'Perfect Power Envelope' with which the unique wideband MOSFET class A/B amplifier works.

Scrupulous attention to detail, and a myriad of technical innovations have resulted in a musically accomplished, beautifully built British product that would enhance any living space and quality audio system.

Come along to room 3130 and experience the Chapter Two for yourself. The Chapter Two: 2x200W into 8 ohms, 2x400W into 4 ohms both channels driven.

Also on display is the entire range of Philosophy Cables. Staff will be on hand to discuss the Cable theory white paper, the conclusions of which fundamentally affects audio cables, and other areas where

the physical transfer of signals takes place.

### Chesky Records

355 West 52nd Street  
6th Floor  
New York NY 10019  
USA

Tel: 212 586 7799

### Stand 22, First Floor

Constantly breaking new boundaries in digital recording technology, Chesky Records prepares to unleash its innovative 2/4/6 DVD-Audio format this autumn. These revolutionary discs offer multiple mixes (stereo, 5.1, 6.0) in 96 kHz/24-bits for the listener to choose from, depending on his/her preferences.

On a different note, Chesky is also proud to release its first multi-channel SACD titles from Christy Baron, Bucky Pizzarelli and David Johansen and the Harry Smiths. For more information please come and visit us at Stand 22, as we want to change the way you listen to music!

### Chord Company Ltd, The

30a, Sarum Business Park  
Portway  
Salisbury, Wiltshire  
SP4 6EA

Tel: 01722 331674

### Room 16/17, First Floor

Chord will be launching a brand new high-end interconnect 'The Signature' retailing at £449.00. The Signature is the result of much research into high

frequency interference problems: sonic perfection!

For home cinema enthusiasts there will be two new dedicated S-Cables, 'The Chord S' and 'The Chord Silver S'. The Silver S utilises silver-plated conductors and Teflon insulation which offers outstanding quality and minimum loss over longer runs.

There will be a fine selection of ex-demonstration cables for sale at very special prices, as well as the full lineup of Chord products.

### Chord Electronics Ltd

The Pumphouse  
Cart Bridge  
Farleigh Lane  
East Farleigh  
Kent ME16 9NB

Tel: 01622 721444

### Room Saint-Julien, Second Floor

Chord Electronics Ltd will be playing for the very first time the new SPM 6000 Reference Mono amplifiers. This new mono amp has been designed with the same no-compromise philosophy as Chord's Flagship Reference Amplifier the SPM 12000.

Delivering 750 watts into an 8 ohm load (1500W into 4 and

**Can't find the  
exhibitor?  
Detailed floor  
plans are on  
pages 50 to 55**

3000W into 2) these amps deliver a performance that is beyond description. The secret to this level of musical performance and dynamic ability is the power supply, a unique technology directly evolved from the aerospace industry. Other models on display will include the world's first true 64-bit Digital to Analogue Converter, the DAC 64.

## Classic FM

**7 Swallow Place  
London W1B 2AG  
Tel: 020 7343 9000**

## Stand 27, Mezzanine Level

We're delighted to welcome Classic FM as our media sponsor this year, with a sparkling presence at the Show. You can find out more about the leading classical music radio station, and particularly Classic FM's breakthrough into Digital Radio broadcasting, when you visit Stand 27. But remember, Classic FM is also sponsoring this year's special feature, the Room of the Future. Fast forward to the Bourg Suite!

## Creek and Epos

**2 Bellevue Road  
Friern Barnet  
London N11 3ER  
Tel: 0208 361 4133**

## Room 3025, Third Floor

Creek and Epos will be showing the new 53 Series products including 5350SE and CD53

together with M12, M15 and new M22. The M22 is an upgrade path to owners of M12s who want more bass extension.

## Cromwell Business Systems

**7 Frankland Park  
Orton  
Penrith CA10 3RP  
Tel: 07971 689225**

## Stand M1, Mezzanine Level

## Diverse Vinyl

**10 Charles Street

## Room 3024, Third Floor

DNA Marketing acts as international sales and marketing agents for ProAc loudspeakers.

## EAR/Yoshino Ltd

**Rectory Farm  
Cambridge Road**

**God Manchester  
Huntingdon PE18 8BP  
Tel: 01480 453791**

## Room 3026, Third Floor

Last year EAR/Yoshino created a stir with the fabulous 312 'Paravicini Control Centre' pre-amplifier, its first all-solid-state product. This year, it is joined by the equally desirable M100 Monoblocks: 100W of pure Class A power from a unique single-ended, transformer-coupled, solid-state circuit. Like all EAR amplifiers, this masterpiece of audio art comes from the renowned Tim de Paravicini, whose more familiar valve amplifiers will also be on demonstration: the unique V20; the recent multi-input 864 pre-amp; the classic 834P phonobox; the 'Enhanced Triode Mode' 861 and 859 amplifiers; and more.

Come and hear why the most demanding professional users record, edit and master with EARs!

## Soundbooth 5, First Floor

Developed by Fujitsu Ten, The Eclipse TD 512 is based on Time Domain technology and represents a fundamental re-engineering of speaker design, in terms of both form and function. Designed to maintain the time and phase integrity of the source recording and to have no acoustic signature itself, the Eclipse TD 512 is a truly transparent loudspeaker, that allows the listener to hear

Eclipse TD512 speakers

recordings with unprecedented clarity, unaffected by resonances, colorations or time and phase distortion effects.

The organic principles embodied in the design result not only in stunning sound, but also in radical and unconventionally beautiful aesthetics.

This year, JVC plans to unveil a wealth of AV equipment re-confirming its position as a progressive Home Cinema manufacturer. The impressive 42in JVC Plasma Screen will display sources from JVC's latest Home Cinema and DVD-A products. These include the EISA award-winning CP-100 European Theatre System of the Year, and the new XV-FA92 exclusive 7 disc Carousel DVD-A deck. JVC will also be previewing the RX-DP10 THX receiver along with other models from the range.

# A Unique Amplifier By A Unique Designer

Last year saw the 312 preamp: 2001 witnesses the birth of the M100 monoblock power amplifier, EAR/Yoshino's second venture into solid state. Tim de Paravicini has burned the rule book as usual, producing a pure Class A, single ended, 100W monster which combines awesome sonic authority with exquisite filigree detail. Unique circuit design - including one of Tim's legendary output transformers - ensures the perfect match between the traditional audio virtues of valves and transistors. Superb construction, great looks, novel heatsinks (no perilous sharp edges - and no noisy fans!), high reliability, extraordinary pride of ownership. Discerning audiophiles prepared to lose some serious weight in the wallet department will need little persuading.

**Talbot Suite, Second Floor**

This year sees the 40th Anniversary of KEF: now one of the world's most famous names in quality high-fidelity loudspeakers for the home, studio or home-cinema. To mark this milestone in the company's history, KEF is announcing the launch of several major new product lines from entry-level to high-end. Details of all the new models have been kept 'under wraps' prior to the Show.

Commenting on the exciting new developments from KEF, Stephen Halsall, Sales and Marketing Director, said, 'KEF was founded in 1961, and from the beginning was destined to become a company with a flair for the unusual and controversial in terms of loudspeaker engineering, design and use of materials — a proud tradition that continues to this day. This latest series of new products is as ambitious a project as any KEF has undertaken in the past — we're talking about genuinely new loudspeakers which will feature defining new technologies with real audible benefits'.

**Leema Acoustics**  
Aspen Media c/o  
222 Maylands Avenue  
Hemel Hempstead

**Herts HP2 7TD**  
Tel: 01442 399949

**Room 3116, Third Floor**

New at the Hi-Fi Show, Leema Acoustics is a manufacturer drawing upon many years of experience in the professional audio arena to develop a range of impressive audiophile monitor loudspeakers.

Its first creation is the miniature Xen two-way loudspeaker that, despite its diminutive dimensions, delivers supremely refined balance, imaging and low-frequency performance.

The Xens are joined by the groundbreaking Xen-on Lite compact and the mighty Xen-on Heavy sub-woofers.

Alone, the Xens have caused a stir amongst the most cynical of audio professionals, but partnered with either of the Xen-on sub-woofers they form a system to satisfy the most demanding audiophile.

**Linn Products Ltd**

The highly acclaimed, award-winning Premium Series from

Marantz has two exciting new additions for the season.

The Hi-Fi Show will see the launch of the SA-12S1 multi-channel SACD player, and the PS-17 multi-channel pre-amplifier. SA-12S1 plays multi-channel and two-channel SACDs, conventional CDs, and DVD-Video disc. PS-17 is an integration of multi-channel pre-amplifier and stereo power amplifier with built-in Dolby Digital DTS-ES compatible surround decoder. The combination of SA-12S1 and PS-17 will make a superb quality stereo system for the conventional CD and two-channel SACD. By adding two SM-17s, it will be a perfect system for multi-channel SACD and 6.1 channel AV Surround Sound.

*Art of Bass.* How to create stunning bass and modern styling – that is Art of Bass, a new British brand. On show will be the B3 range of sub-woofers consisting of three models, the B3S at £299,

the B3M at £499 and the range-topping B3L at £999. The sub-woofers are available in three standard colours (silver, white and black) with the option of additional finishes to special order.

**Orelle.** Contemporary styling and unsurpassed performance, the new exquisite AV range from Orelle featuring the latest in technology is here. Defying convention and rethinking established methods, we have developed integrated solutions to satisfy your individual requirements for a home entertainment system. From flat TV, miniature satellite speaker systems to CD/DVD music systems for the enthusiast, it's all at the Orelle stand.

**Path Premier**  
Unit 8  
Dormer Road  
Thame Industrial Estate  
Thame  
Oxfordshire OX9 3UD  
Tel: 01844 219000

## **Mouton Cadet, Second Floor**

Path Premier will use the Hi-Fi Show for the European launch of the new Mark Levinson No 40 Audio Video Processor. The No 40 is the most technically advanced AV Processor available today. This component showcases new technologies previously unavailable at a consumer level. The video console offers professional levels of video

quality. The No 40 will form the heart of Mark Levinson Music and Film Demonstration.

The world launch of a new Revel Loudspeaker will take place. The new F50 is a floor-standing design which utilises patented ceramic drive units: these new drivers offer exceptional resolution and dynamics. More details of this new design will be available at the show.

A new product from Proceed is the PVP Video Processor. This new video output stage for PMDT offers full progressive video

output and a unique input stage, allowing connection of external video sources.

A new cartridge from Lyra will be previewed. The Helikon SL is a special low output version of the Helikon, this new cartridge is ideally suited and designed to match Naim amplifiers.

Products on show will include Mark Levinson, Proceed, Revel Madrigal Imaging, Faroudja, Da-Lite, Kontak. Demonstrations of the Mark Levinson Music and Film System are by ticket only. Tickets are available from the Mouton Cadet Suite.

**PMC will show Bryston products (Rooms 3035 and 3036)**

**Pioneer Hi-Fi Ltd**  
Pioneer House

#### Fronsac, Second Floor

Once again Sony is happy to return to the Hi-Fi Show with a new and exciting product line-up. The Fronsac room will offer a

display of all the latest multichannel SACD players. Any visitor to the show calling in at the Sony room will be assured of a warm welcome and a great sound from some of the latest SACD releases.

Super Audio CD has gone from strength to strength and the Sony line-up now includes eight multichannel SACD capable players. On public display and demonstration for the first time, will be the new top-of-the-range ES model, the SCD-XA777ES.

At the other end of the scale, visitors will be able to see the brand new entry-level multichannel SACD player, the SCD-XE670. With this product Sony demonstrates just how far it has come since the launch of its flagship SCD-1. The SCD-XE670 is an affordable introduction to

SACD and an ideal replacement to any CD player.

The ultimate solution for the best in audio and video integration has to be a combination SACD and DVD player. With two SACD/DVD decks as well as two all-in-one SACD/DVD packages, Sony has a super Audio CD solution for every person, and every budget.

SACD compatible speakers, amplifiers and other complementary products will also be on display.

Red Rose Music. MDC will be presenting, for the first time outside the USA, a brand new, more affordable range of solid-state electronics and ribbon loudspeakers designed by Mark Levinson. The Rosette 1, a highly

musical integrated amplifier at under £2000, is the baby of the range and will be showcased with the new Rosebud compact loudspeaker. If production schedules allow, a new high power integrated, the Passion, and a floorstanding loudspeaker, the Classic, will also be shown.

Red Rose components are rapidly gaining a reputation for producing some of the finest sounds at any price. The giant-killing 'Baby Reference System' offers outstanding musical performance in an eminently usable and affordable package.

When you have had your fill of explosions and surround sound 'effects', come and listen to some music!

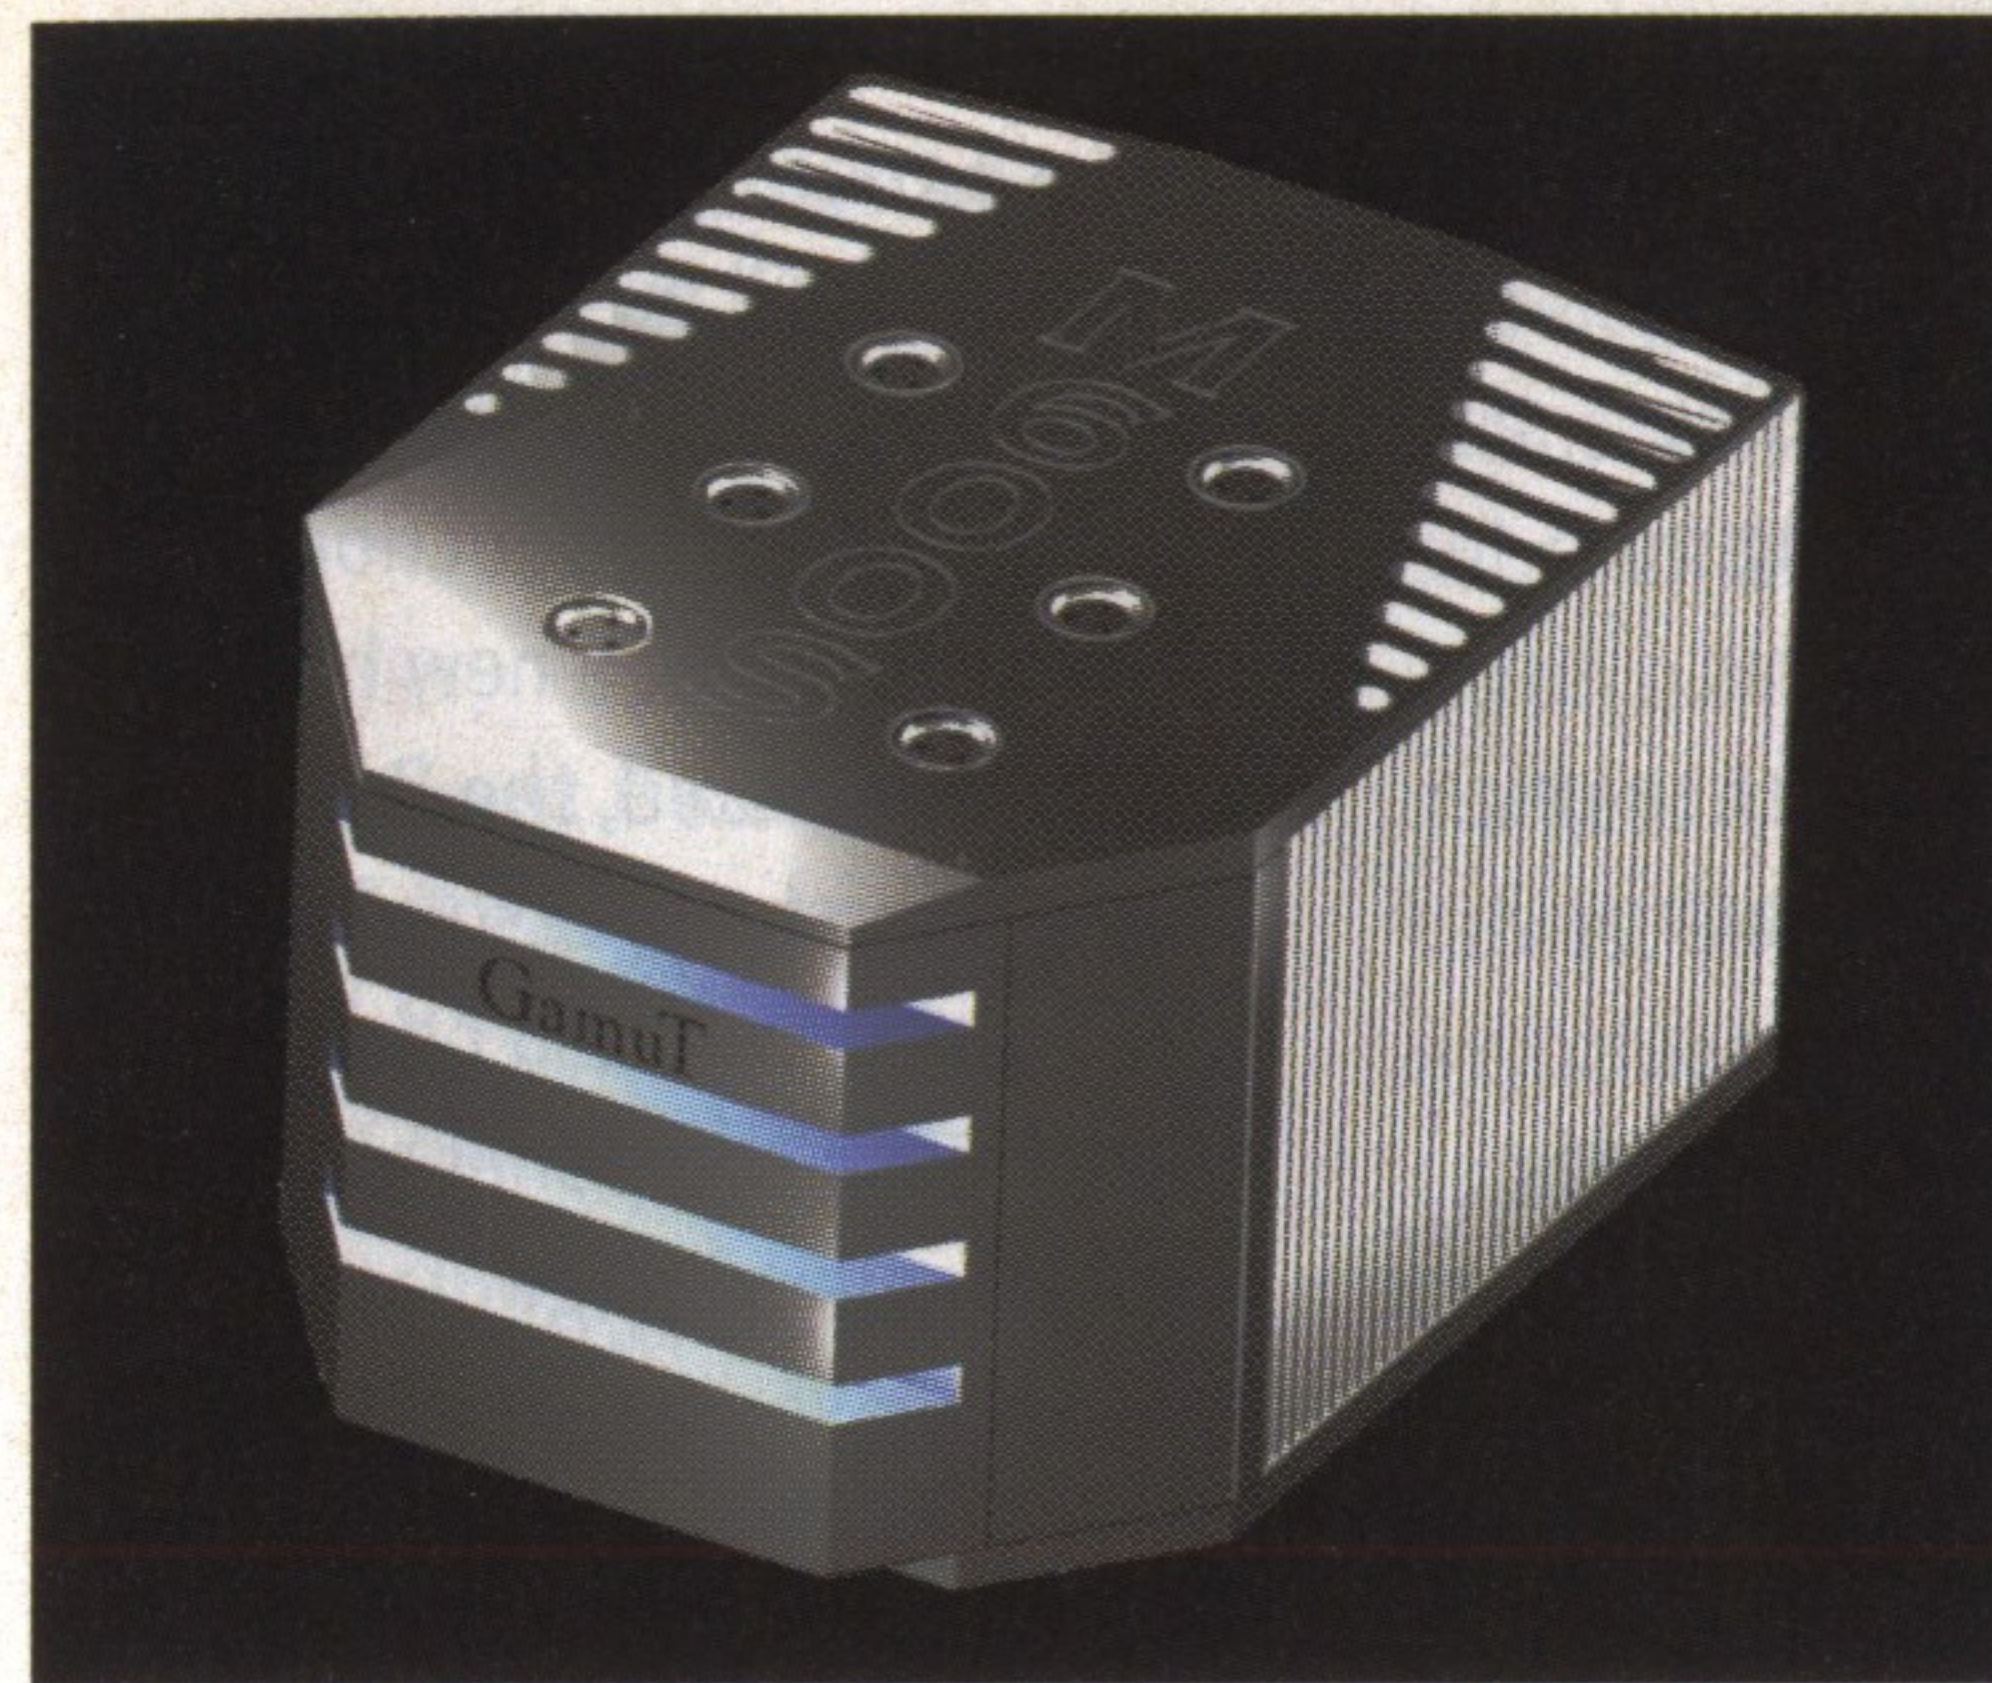

Wadia. MDC will be launching the all new Wadia 301 high bit-rate CD player. The W301 is the first completely new Wadia in over three years, this affordable state of the art player features full 24-bit processing with the data 'unsampled' to over 1.4 MHz. This new player also features the latest version of Wadia's patented 'Digimaster' filter and innovative 'Swiftcurrent' power supplies for the twin Burr Brown 1704 Dacs. Like all Wadia players and processors, the W301 features an innovative high performance digital pre-amp enabling the W301 to drive a power amplifier direct.

Also on show will be the latest versions of Wadia's top of the line integrated player, the W861 and its state of the art W270/W27ix transport and processor

## Room 3095

The stunning new B2 floorstanding loudspeaker from Beauhorn is launched at the show this year. In the tradition of Beauhorn's exceptional single-driver speakers, the B2 is a bass horn which enjoys distinctive styling and superb sound quality.

Solid imagery, fast transients and transparent detail render recordings into the sound of live musical performances.

The B2's design is perhaps the ultimate expression of Beauhorn's

commitment to simplicity and 'form follows function', and how well it works! Make no mistake, this will be the 'must hear' room of the show.

## Rooms 3043/3045, Third Floor

With an abundance of original concepts in loudspeaker design, backed by thirty years experience in manufacturing and matched with an eye for fashion and unparalleled attention to detail, is Usher the original design manufacturer you've always been looking for? Come to our booth — we believe you will find the answer.

During the show, Usher will be introducing the Compass Series Loudspeakers, co-designed by

world-renown authority, Dr Joseph D'Appolito and Usher. Don't miss the opportunity to witness our revolutionary designed speakers and talk to Dr Joseph D'Appolito personally.

## Stand 26, First Floor

Following the phenomenally successful launch of the XS Series at last year's show, Soundstyle is proud to show some stunning new variations of this award-winning product. The Jet Black rack has been replaced with Onyx, subtly different from pure black. Two new colours have been introduced, Oyster and Topaz, primarily to offer a perfect complement to neutral *décor* but also to match contemporary, champagne-coloured equipment.

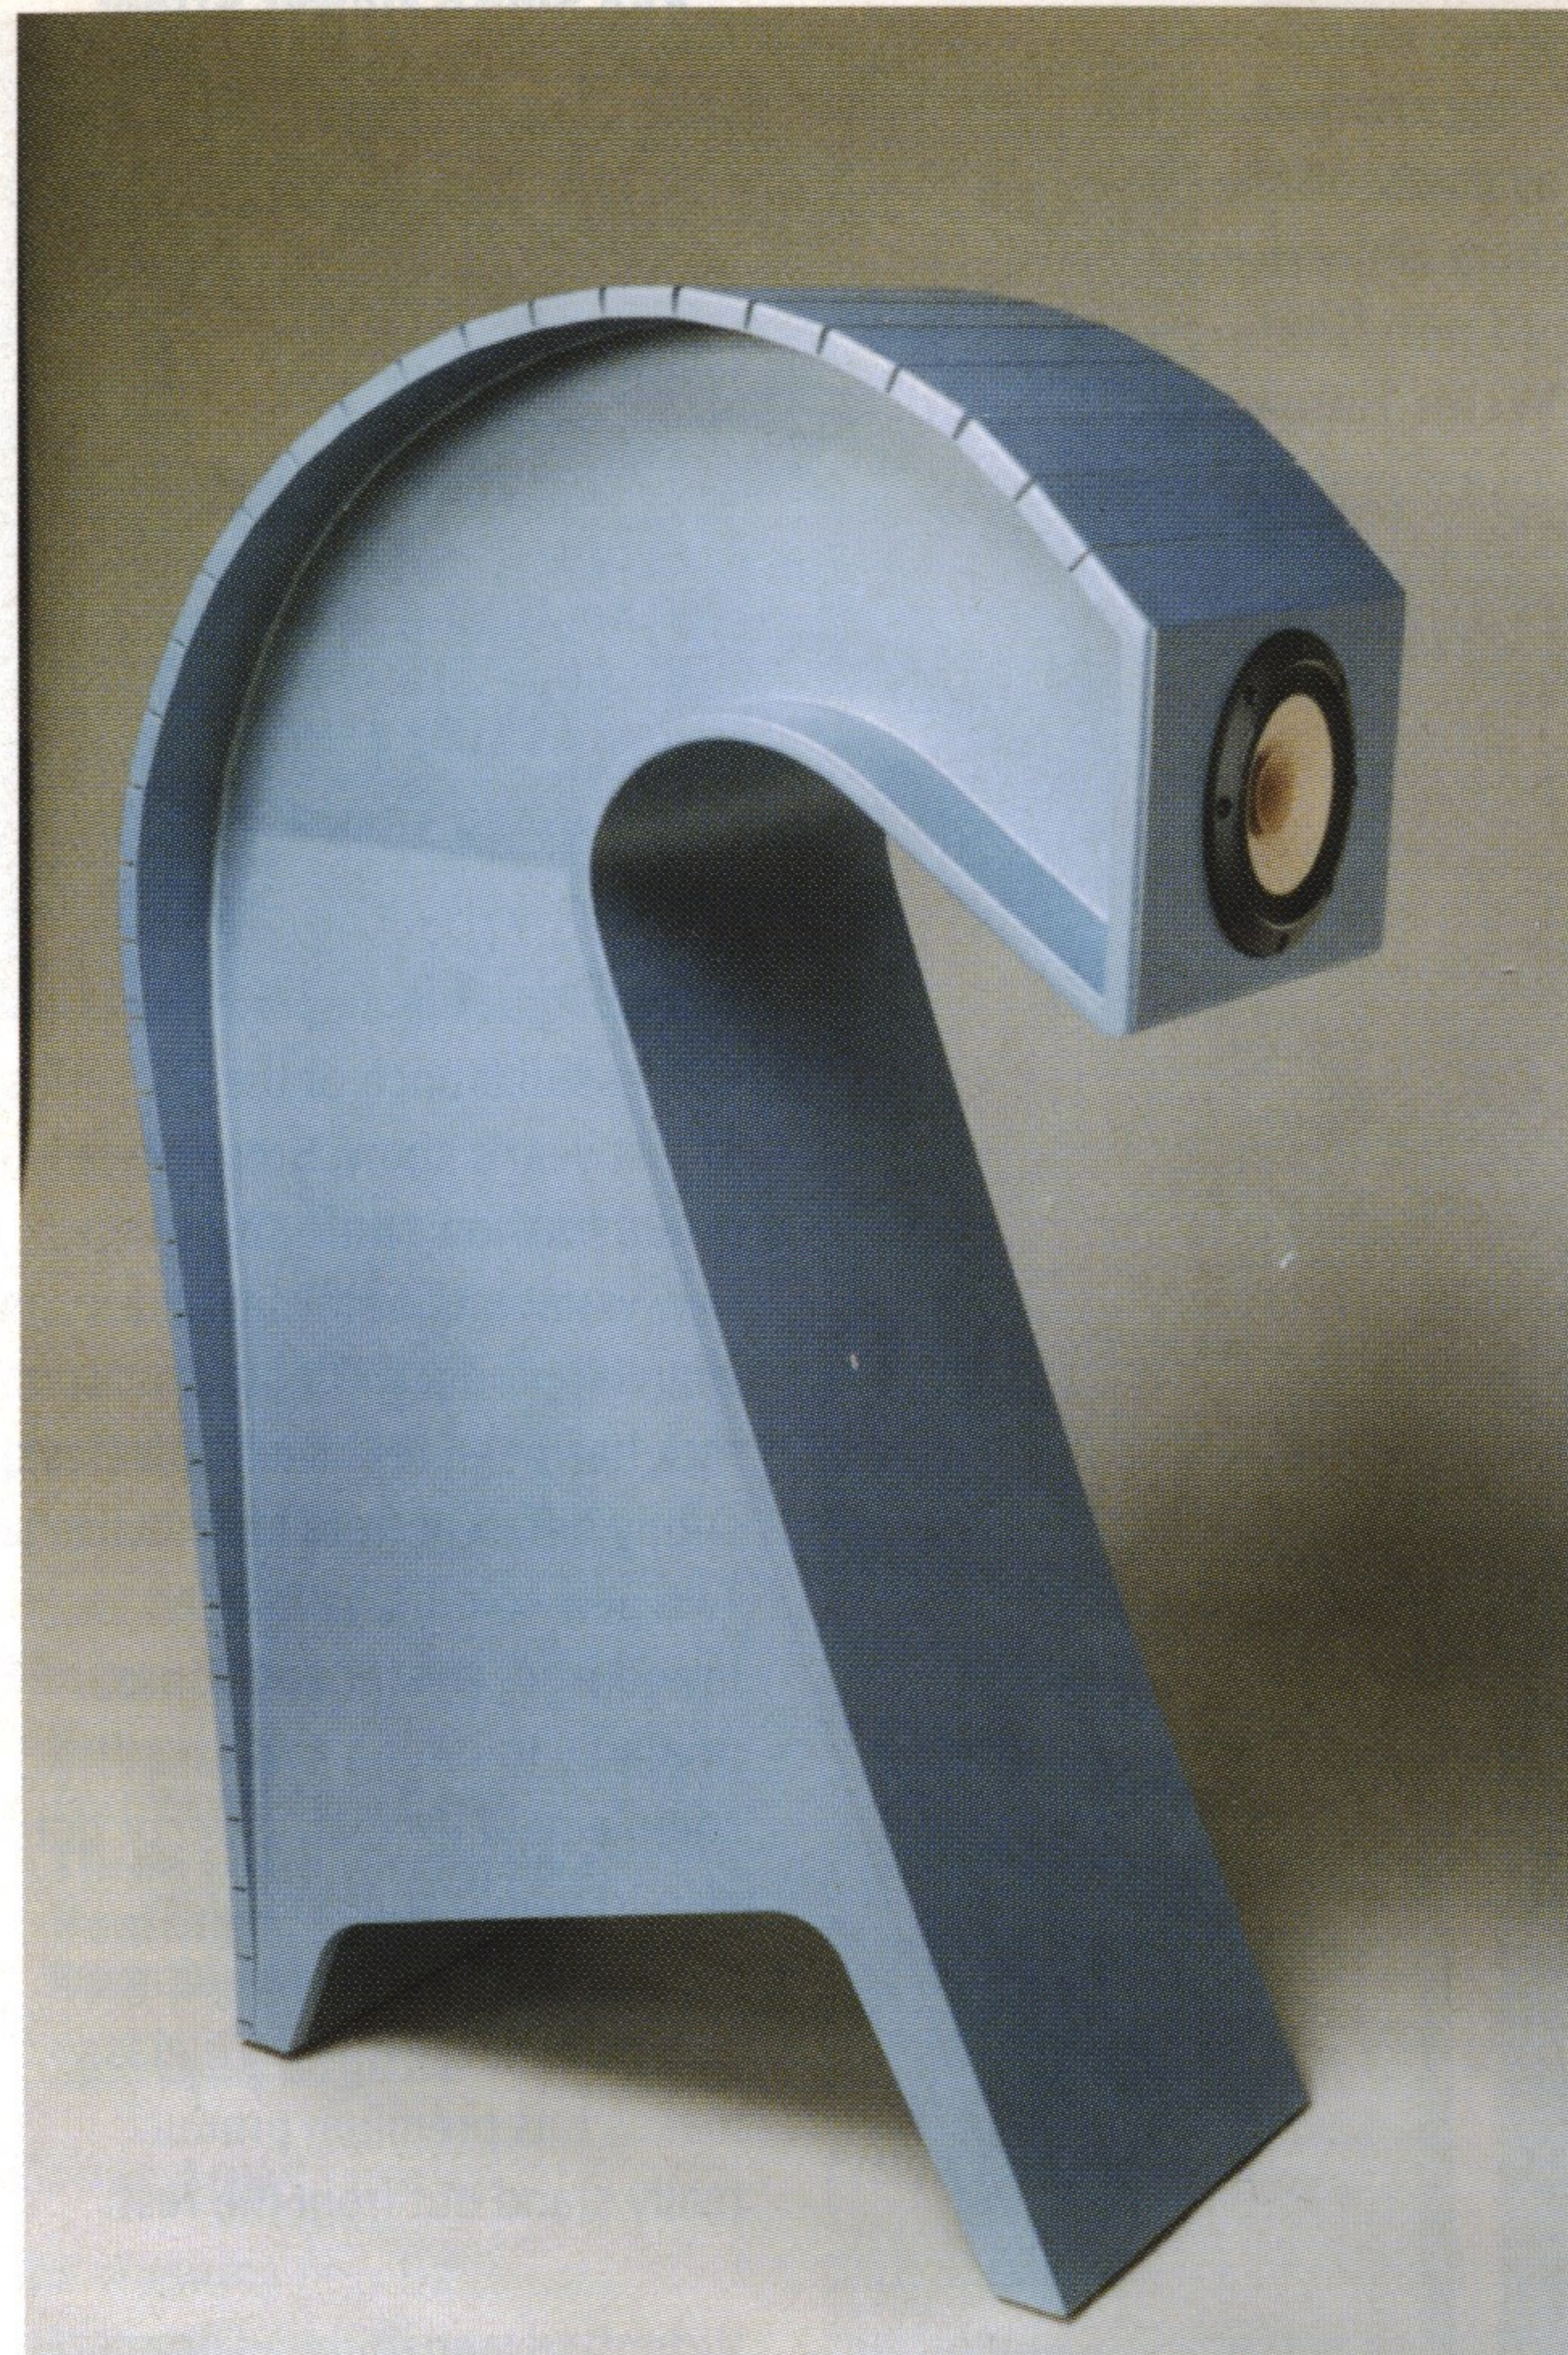

High quality opti-white glass makes this premium product really stand out from the rest.

Videologic, a division of Imagination Technologies, is one of the UK's top innovators in consumer electronics, from digital radios to home cinema audio systems.

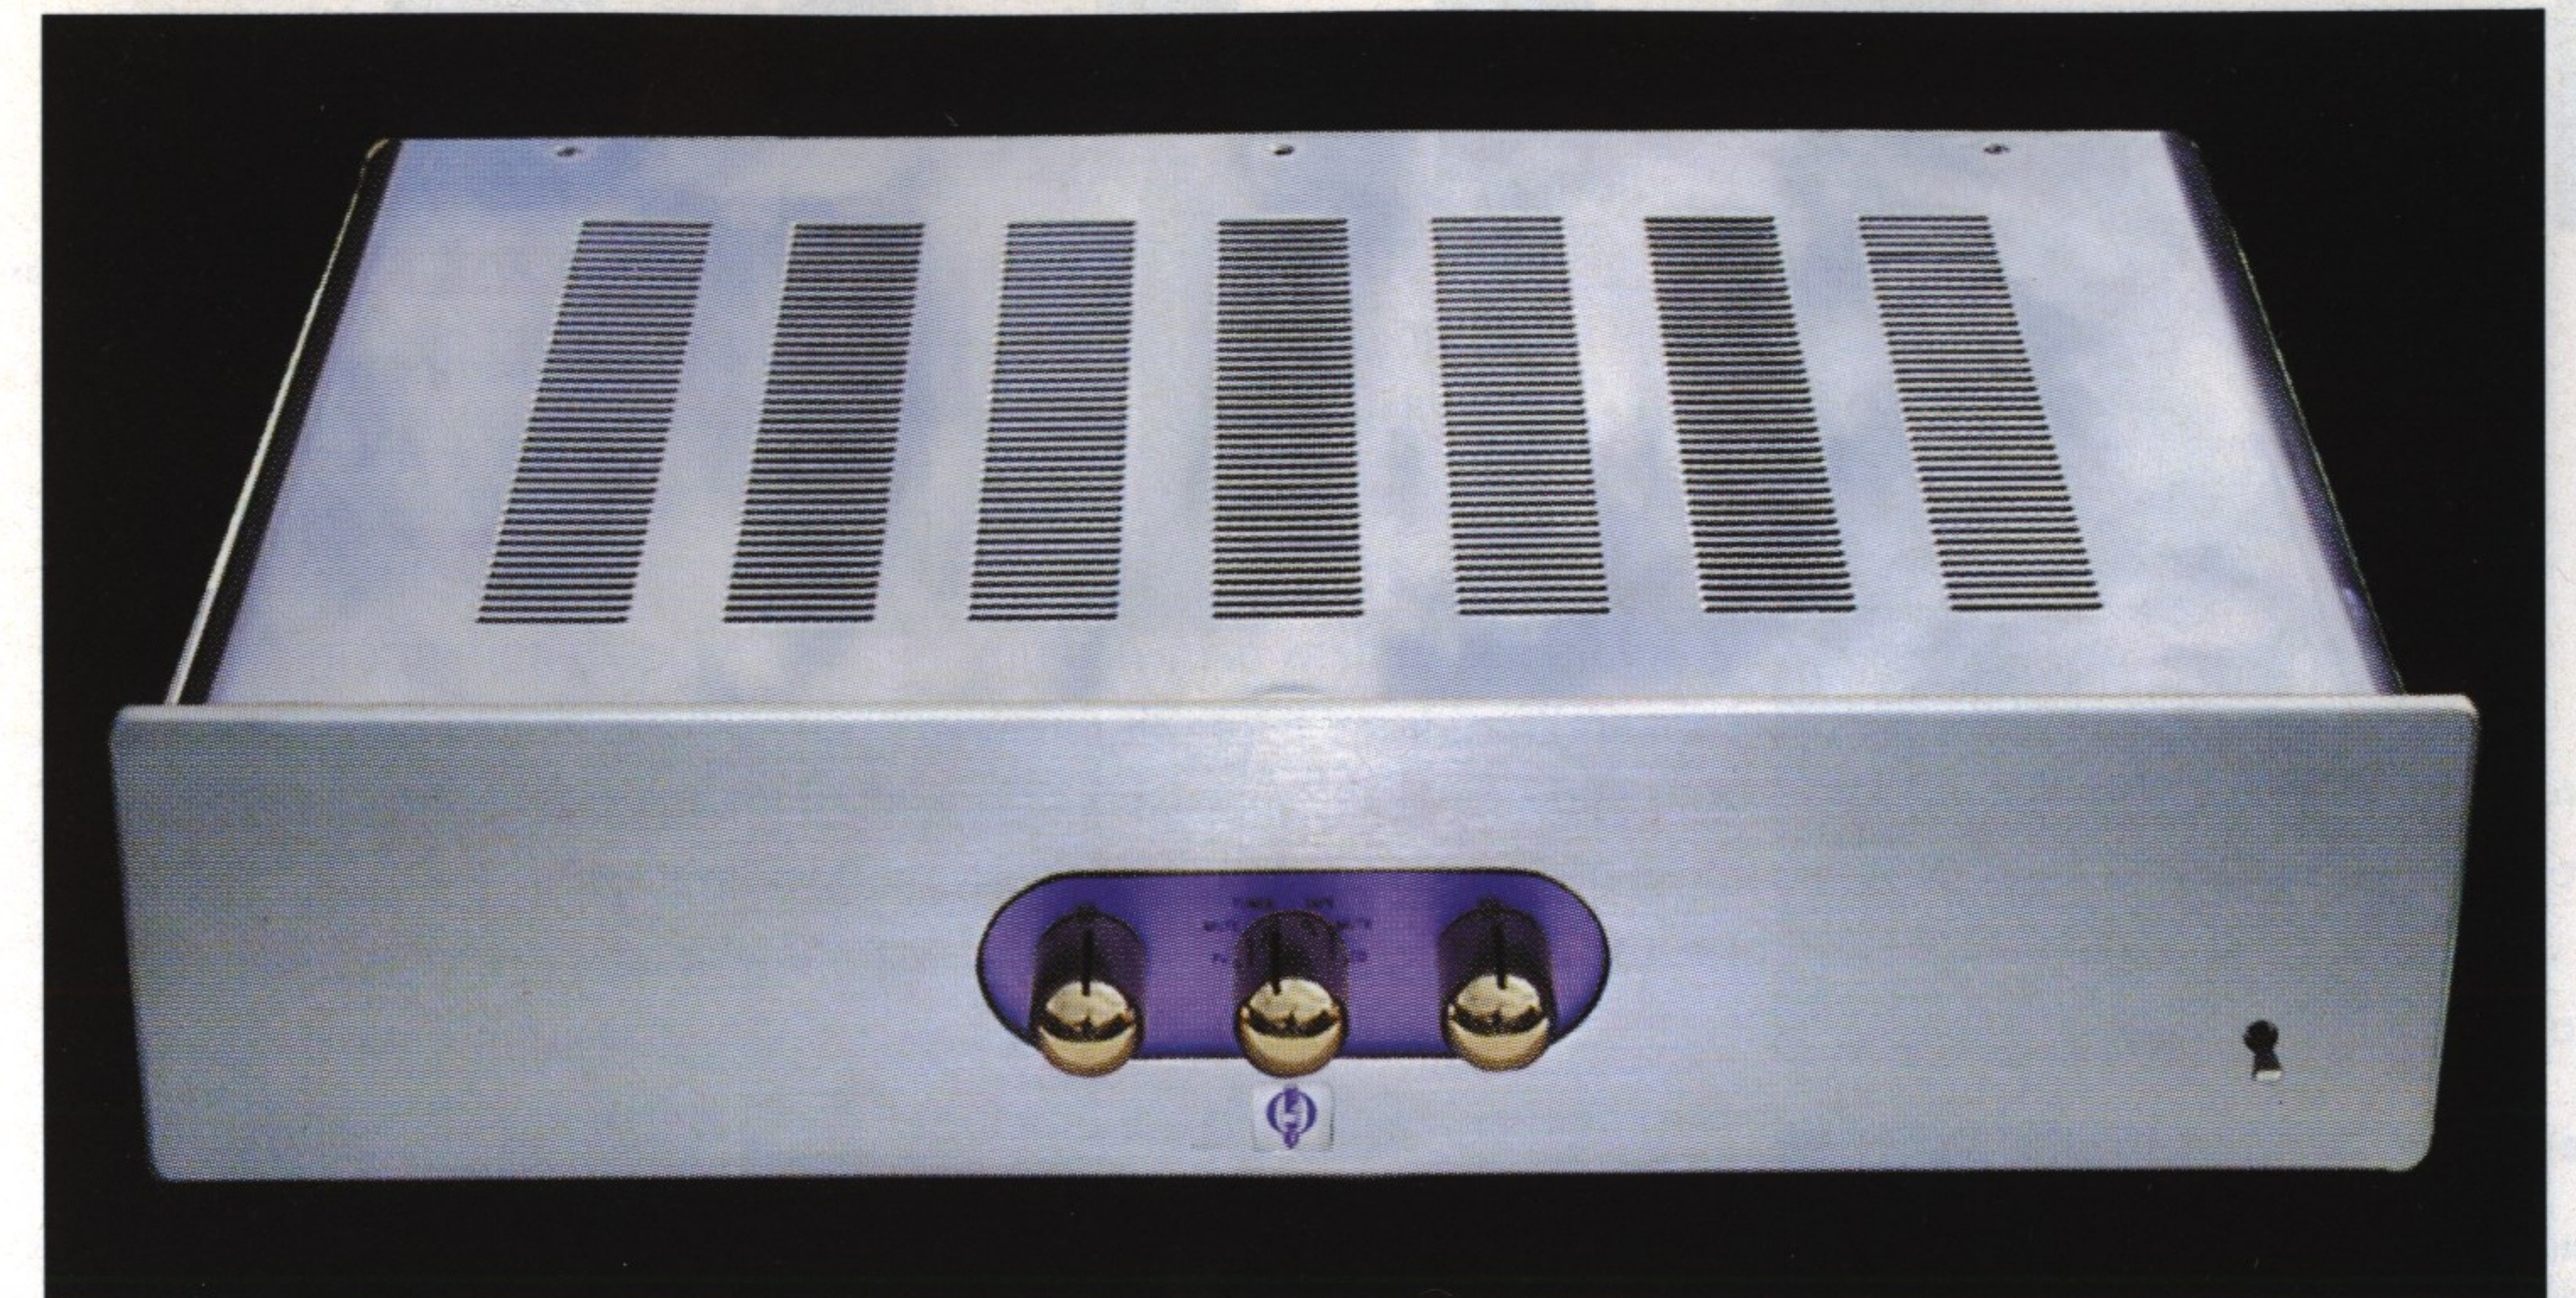

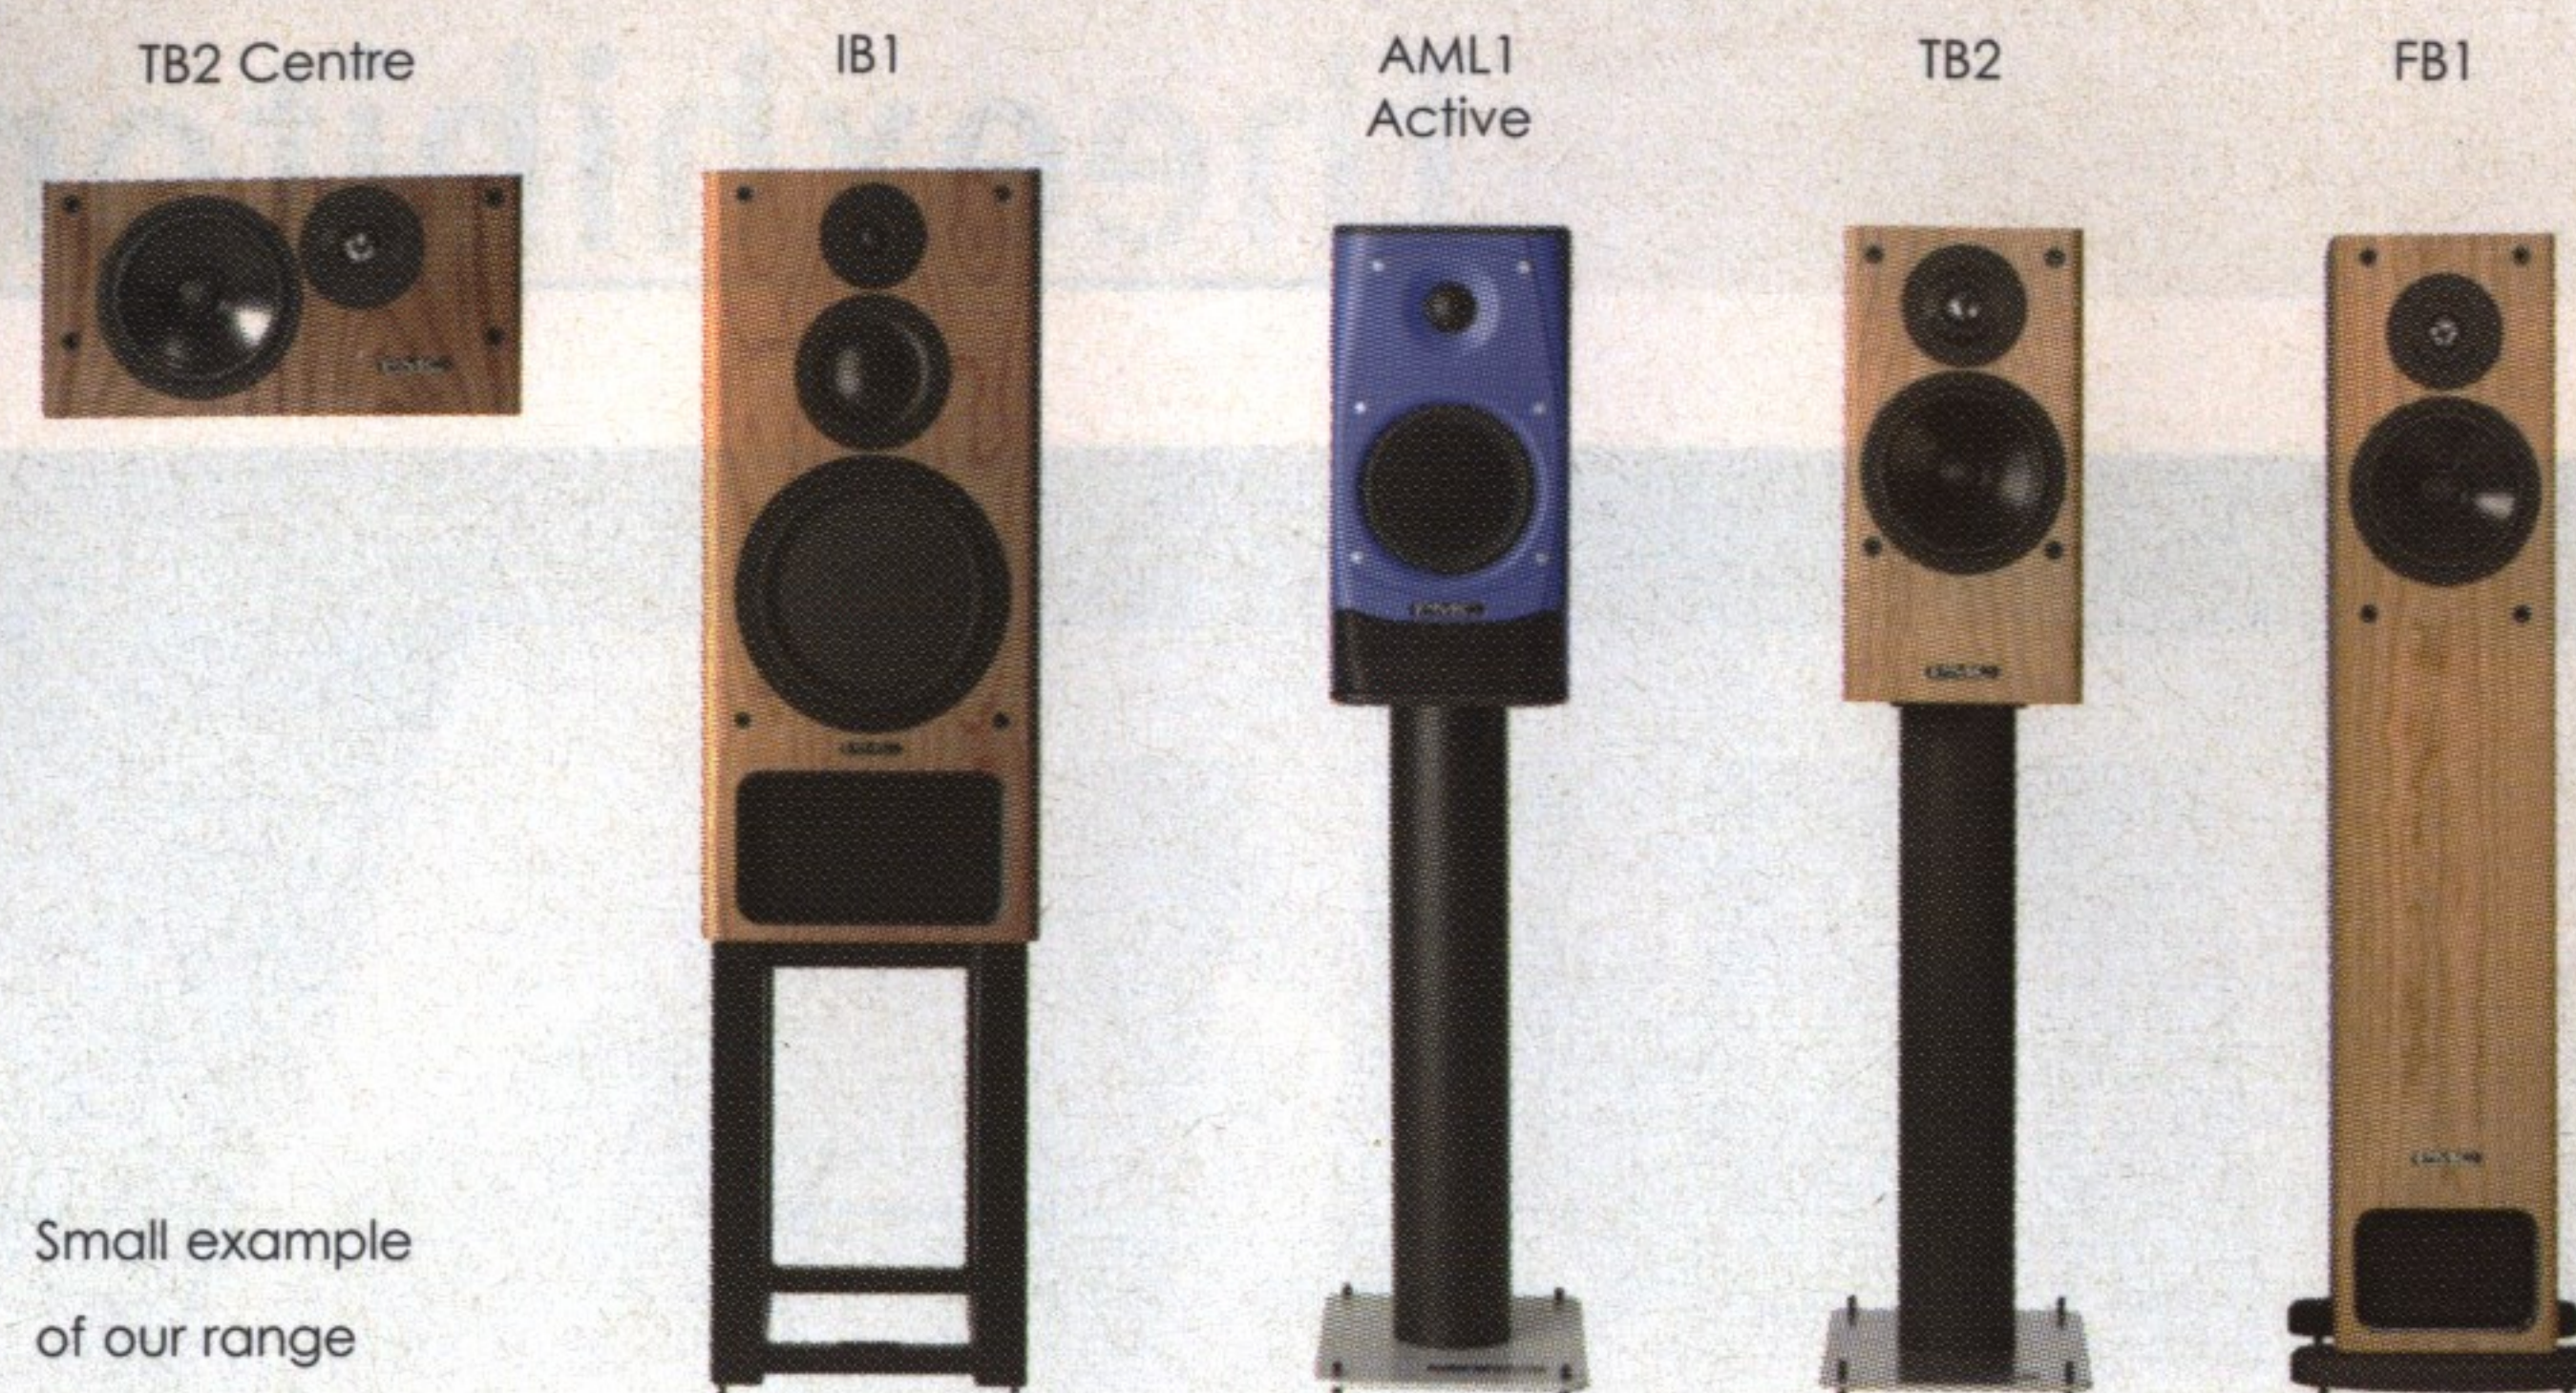

**Hi-Fi Show 2001 is sponsored by Classic FM and *Hi-Fi News*. Don't miss the exotic and extraordinary items on demonstration or available at special Show prices!**

⌚ Clockwise, from above: the Beauhorn speaker from Thomas Transducers; Croft pre-amplifier from Eminent Audio; Red Rose amplifier from Musical Design Company; Polaris speaker (Eminent Audio); Chesky SACDs

Small example  
of our range

We make the ultimate reference loudspeakers and amplifiers for the most critical and demanding professionals in the world: from the BBC to Hollywood. No tricks, no smoke and mirrors, just the finest quality products that last.

If you need a stereo or surround system, give them a listen and you will hear exactly what the artist intended, not a poor interpretation.

Videologic's award-winning DRX family of DAB digital radios broke into the market at a groundbreaking price of £299 last year and has been the recipient of numerous press awards. The DRX tuners can be added to your hi-fi to offer easy auto-tuning, broadcast information display, and crystal-clear sound quality with no interference, hiss or crackle.

Videologic will be previewing additions to our additions to our digital radio family and a new range of high performance home cinema separates.

# Compass DANCER SERIES

## Compass DANCER SERIES DESIGN HIGHLIGHTS:

- Carbon-paper woofer cone
- Silk-fabric soft dome tweeter; Ceramic type on some models
- Innovative magnet flux design with corrective cooper elements on all drivers, resulting in significantly reduced third and second harmonic distortions
- Cast aluminum driver frame
- Hand picked, matched-pair drivers on all models
- Phase coherent crossover designed by world renown master of speaker design, built with components of the highest quality and thoroughly tested with digital-based measuring equipment
- Massive, sonically dead front baffle which places drivers in a time-coherent physical arrangement
- Multi-chamber reinforced cabinet with solid wood side panels, handcrafted to the highest furniture grade

From Usher Audio, ONLY.

### Behind the Scene

Dr. Joseph D'Appolito has been working as consultant for Usher Audio since early 2000. A world renown authority in audio and acoustics, Dr. D'Appolito holds BEE, SMEE, EE and Ph.D. degrees from RPI, MIT and the University of Massachusetts, and has published over 30 journal and conference papers. His most popular and influential brain child, however, has to be the MTM loudspeaker geometry, commonly known as the "D'Appolito Configuration," which is now used by dozens of manufacturers throughout Europe and North America. Dr. D'Appolito designs crossover, specifies cabinet design, and tests prototype drivers and for Usher Audio, all from his private lab in Wolfeboro, New Hampshire. Although consulting to a couple of other companies, Dr. D'Appolito especially enjoys working with Usher Audio and always finds the tremendous value Usher Audio products represent a delightful surprise in today's High End audio world.

# WIN EAR/Yoshino's superb 834P phono pre-amplifier...

Your chance to own the 834P de-luxe, worth more than £700!

**When Tim de Paravicini** does a job; he does it properly; whether it is a custom studio installation, or an affordable phono pre-amplifier like the EAR 834P range. With years of experience in design and manufacturing, nobody can come close to his unique point of view and life experiences he puts into all his designs.

When first launched, now over five years ago, it was the only valve phono stage you could buy with facilities for both good quality Moving Coil (m-c) and Moving Magnet (m-m) cartridges. In addition, for a small premium the unit could be purchased with an in-built volume control, allowing direct connection to a power-amplifier.

Yoshino was set up in 1994 with the pure intention of manufacturing the world's finest hi-fi and studio equipment: in other words; the designs of Tim

de Paravicini! Yoshino Ltd decided to up-rate and widen the range. There are now three models in the EAR 834P line up. The Classic EAR 834P uses the same circuit architecture as its more expensive brothers, and shares in the same high quality sound through m-m type cartridges. It is enclosed in a tough, rigid metal case, and is fully CE type approved.

Our most popular phono amplifier in England, the 834P Signature builds on the classic EAR 834P specification, by adding a superb Moving Coil (m-c) input stage, as well as the no-extra-price

option of a high quality volume control.

Top of the range, the De-luxe comes in a stunning chrome and gold cabinet, and has extra attention and quality control. For the true vinyl enthusiast. With different moving-coil input options, this unit will fit the most demanding of audiophile systems. From Basic through Signature to De-luxe, the performance remains class leading.

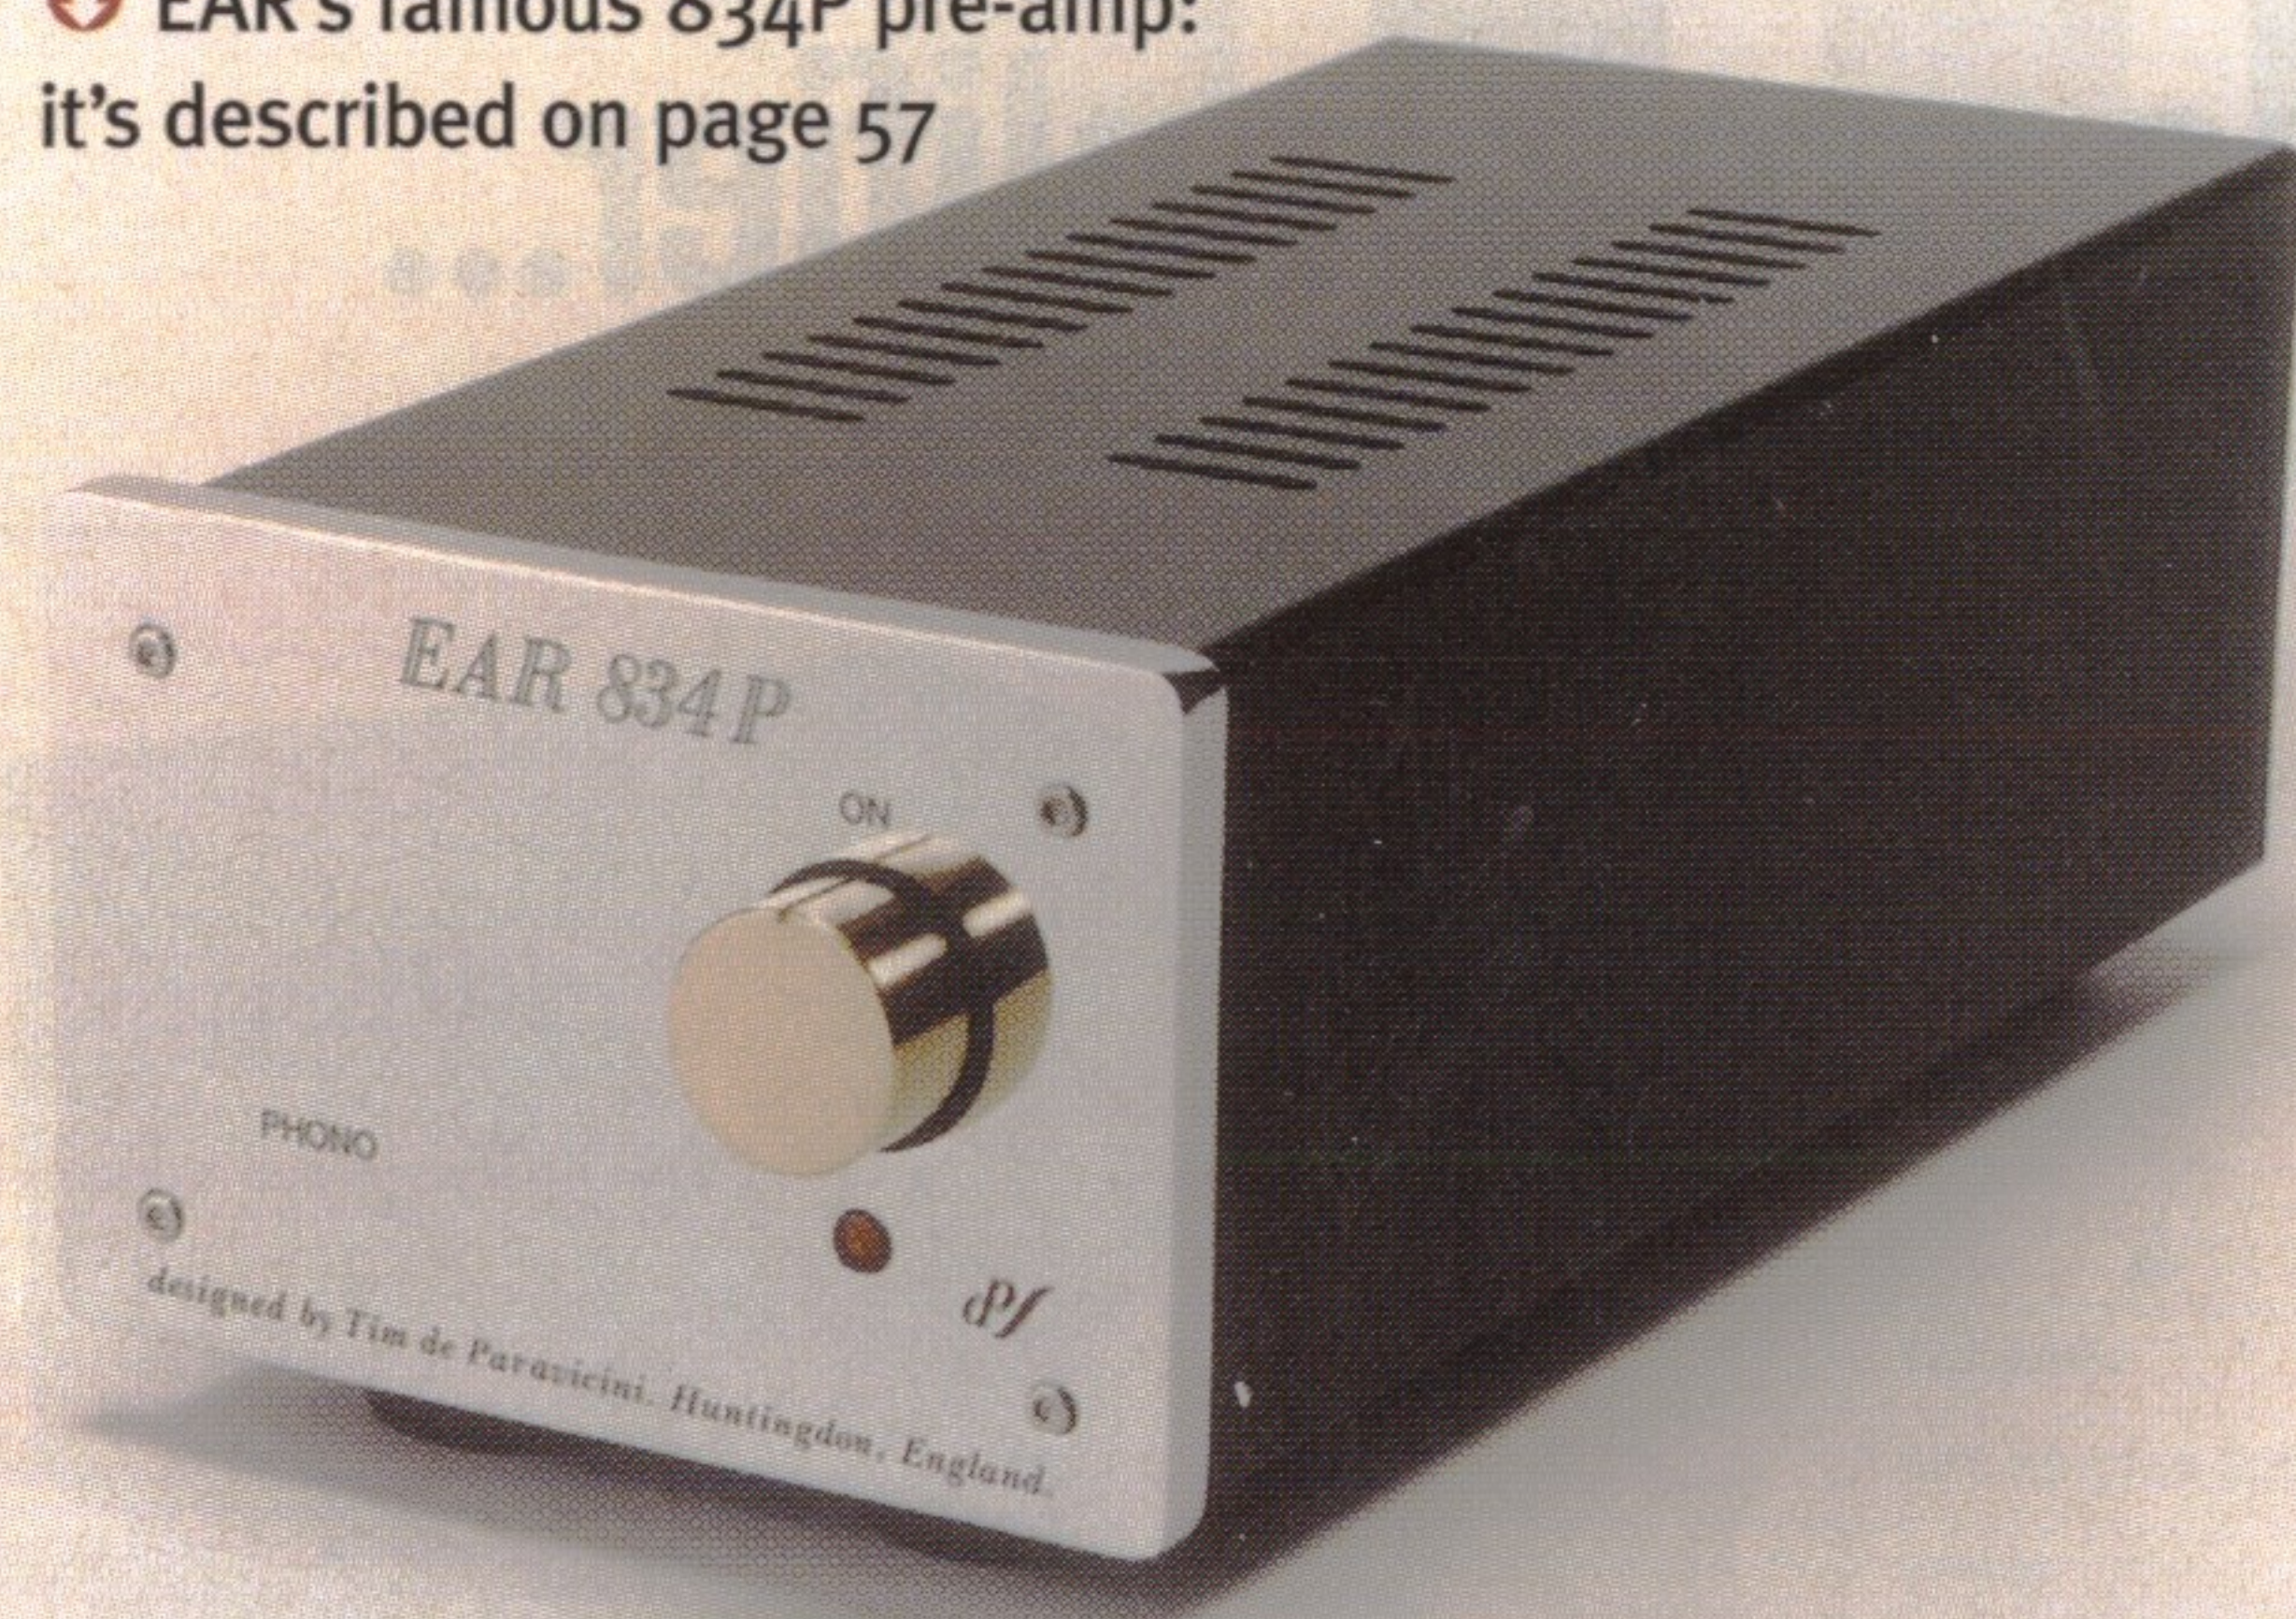

To enter the competition, turn the page now ➤

## WIN EAR/Yoshino's superb 834P phono pre-amplifier...

EAR's famous 834P pre-amp: it's described on page 57

### RULES

- 1) This competition is open to UK residents only. Photocopied entry forms are acceptable but only one form per entrant will be accepted. Multiple entrants will be disqualified. No other correspondence must be enclosed with the entry form.
- 2) There will be no cash or other alternative to the prize offered.
- 3) Employees of IPC Media, or of EAR/Yoshino, or of their agents, are not eligible to enter.
- 4) Entries must be received by first post on Friday, 5 October 2001. The winner will be the first correct entry opened when judging is carried out.
- 5) The winner will be notified by post; the winner's name will be published in *Hi-Fi News*, January 2002 issue. The Editor's decision will be final and binding and no correspondence will be entered into regarding the competition.
- 6) Entry forms received become the property of IPC Media.
- 7) Entry to the competition is deemed to indicate acceptance of the rules.

### HOW TO ENTER

Just complete the entry form and hand in at the *Hi-Fi News* stand; or post to **EAR Competition, *Hi-Fi News*, PO Box 531, Croydon, Surrey CR9 2ZA, to arrive not later than FRIDAY, 5 OCTOBER 2001.**

#### The questions:

1) In what year was Yoshino Ltd founded, to market the designs of Tim de Paravicini?

- ☐ 1992  
☐ 1997  
☐ 1998  
☐ 1994

2) What is the finish of the EAR/Yoshino 834P De-luxe model's casework?

- ☐ Black and silver  
☐ Silver and gold  
☐ Chrome and gold  
☐ Chrome and black

3) Which cartridge types are catered for by 834P Signature and De-Luxe models?

- ☐ moving-coils only  
☐ moving-magnets only  
☐ m-c and m-m cartridges  
☐ high-output m-cs only

# EXPERIENCE THE CHORD EFFECT!

The first time you hear your sound system with Chord interconnecting cables will be the first time you've **really heard** it.

Be warned - the effect can be shattering.

Your eyes and ears will be opened. Your music will never sound the same again.

Specify Chord cables - Hear the light!
